Title: ISRAEL KEYES;
SAMANTHA TESSLA KOENIG - VICTIM;

SERIAL KILLINGS - VIOLENT CRIMINAL THREAT

Date specimens received: October 16, 2012

The specimens listed below were examined in the Nuclear DNA Unit:

ITEMS FROM SHED AT 2456 SPURR LANE

Q262 Swab from back wall of shed (1B131, E5123273)

Q263 Garden sprayer (1B115, E5123257)

ADDITIONAL ITEM

Q280 Bone (1B206, E5123748)

This report contains the results of the serological and nuclear DNA analyses.

UNCLASSIFIED

Results of Serological Examinations:

Blood was identified¹ on specimen Q263. A chemical test for the possible presence of blood was positive² on specimen Q262; however, the presence of blood was not confirmed.

Results of Nuclear DNA Examinations:

Specimens Q262, Q263-1 (swabbing of bloodstain from garden sprayer), and Q280 were subjected to deoxyribonucleic acid (DNA) typing by the polymerase chain reaction (PCR). The AmpF ϕ STR \textregistered Identifier \textregistered Plus PCR Amplification Kit was used for this analysis.³ In addition, specimen Q263-1 was subjected to DNA typing by the PCR using the AmpF ϕ STR \textregistered Yfiler TM PCR Amplification Kit.⁴

It is noted that for comparison purposes, specimen Q280 is being used as an alternate reference sample for SAMANTHA KOENIG and hereafter will be designated specimen Q280 (KOENIG) to further differentiate it from the other questioned (Q) specimens analyzed.

Based on the typing results from the amelogenin locus, female DNA is present in the DNA obtained from specimens Q262 and Q280 (KOENIG). The amelogenin and Y-STR typing results from specimen Q263-1 indicate a mixture of male and female DNA.

Based on the STR typing results⁵ and to a reasonable degree of scientific certainty, specimen Q280 (KOENIG) is the source⁶ of the DNA obtained from specimen Q262.

The STR typing results from specimen Q263-1 indicate the presence of DNA from two or more individuals. Based on the STR typing results⁵ and to a reasonable degree of scientific certainty, specimen Q280 (KOENIG) is the major contributor⁶ of the DNA obtained from specimen Q263-1. The STR typing results for the minor contributor to specimen Q263 are not suitable for matching purposes; however, they may be utilized for exclusionary purposes.⁷

The Y-STR typing results from specimen Q263-1 indicate the presence of DNA from a single male individual and are suitable for comparison purposes.

The DNA typing results obtained from the tested specimens are not eligible for entry into the Combined DNA Index System (CODIS). These results will be maintained by the FBI Laboratory for possible future comparisons. If future comparisons are requested, a known blood or buccal (saliva) sample from the subject should be submitted.

No other serological or nuclear DNA examinations were conducted.

Methods/Limitations:

The following methods and limitations apply to the results/conclusions provided in the results section(s) of this report and are referenced by number in the body of the text for clarity.

¹ The identification of blood on an item is established by first using, when applicable, the presumptive phenolphthalin test followed by the confirmatory Takayama Hemochromogen test.

² A positive reaction with the phenolphthalin reagent, without subsequent confirmation using the Takayama Hemochromogen test, provides an indication that blood may be present on an item, but it does not constitute an identification of blood. Insufficient quality and/or quantity of biological material may affect the ability to confirm the presence of blood.

³ The AmpFSTR® Identifiler® Plus PCR Amplification Kit includes the amelogenin locus and the autosomal STR loci (from non-sex chromosomes) D8S1179, D21S11, D7S820, CSF1PO, D3S1358, TH01, D13S317, D16S539, D2S1338, D19S433, vWA, TPOX, D18S51, D5S818, and FGA. The amelogenin locus is used for sex determination. Insufficient DNA quality and/or quantity can affect the ability to generate a DNA typing result and is not an absolute determination that an individual did not come into contact with an item of evidence.

⁴ The AmpFSTR® Yfiler™ PCR Amplification Kit includes the STR loci DYS456, DYS389I, DYS390, DYS389II, DYS458, DYS19, DYS385a/b, DYS393, DYS391, DYS439, DYS635, DYS392, Y_GATA_H4, DYS437, DYS438 and DYS448. These STR loci are located on the male Y-chromosome and are transmitted through a paternal lineage from father to son. Barring mutation (a rare event which may occur in a sperm cell prior to transmission of the Y-chromosome to a biological son), all males in the same paternal lineage have the same Y-STR typing results.

⁵ Not all loci at which amplification is attempted will yield conclusive results; a statistical estimate (random match probability) has been based on loci with conclusive typing results for which allelic frequency data are available. The random match probability is defined as the chance of selecting a biologically unrelated individual at random having an STR profile matching the DNA obtained from the questioned specimen. The uncertainty associated with a random match probability calculated using any of the FBI databases has been empirically demonstrated to be less than 10-fold in either direction (e.g., for a random match probability estimate of 1 in 10 million, the true frequency of that profile can be confidently expected to be between 1 in 1 million and 1 in 100 million). This confidence interval is supported by the 1996 National Research Council report entitled "The Evaluation of Forensic DNA Evidence" and is based on published data from the 1993 study entitled "VNTR Population Data: A Worldwide Study."

⁶ This opinion is based upon the outcome of a statistical calculation in which the probability of selecting an unrelated individual at random from an African American, Caucasian, Southeastern Hispanic, or Southwestern Hispanic population having a DNA profile matching the contributor (source/major/minor) of the DNA obtained from the questioned specimen(s) was determined to be equal to, or less than, 1 in 6 trillion individuals.

⁷ As used here, STR typing results are deemed not suitable for matching purposes (i.e., inconclusive) when the potential exists that not all of the genetic information in a biological sample has been detected. For STR typing results to be used for matching purposes, sufficient DNA quality and/or quantity is necessary.

Remarks:

The supporting records for the opinions and interpretations expressed in this report are retained in the FBI files. The submitted items will be returned to you under separate cover. FEDERAL BUREAU OF INVESTIGATION

Date of entry 12/14/2012

On Thursday, December 13, 2012, the writer telephonically contacted Olympic National Park (ONP) Chief Ranger [redacted] to discuss the Israel Keyes case and to request that [redacted] run Keyes' name through their data bases in an attempt to locate any backcountry permits, contact with law enforcement and any other information that could assist with a timeline for Keyes and his girlfriend, [redacted]

[redacted] explained that any law enforcement/Ranger related contact with KEYES or [redacted] would have been documented in ACCESS, which is the WA State data base and a law enforcement information sharing application. If other non-law enforcement related contact were made with Keyes or [redacted] it may have been reported on a local data base used by ONP.

[redacted] provided two Wilderness Camping Permits for Keyes between 2000-2012. The first is dated 8/13/2005 and revealed that on that date a party of 3 had a permit to camp in the Eagle Point (Lake Ozette) campsite for one night. The second permit is dated 6/17/2006 and revealed that on that date a party of 2 had a permit to camp at the Garden Island (Lake Ozette) campsite. (Writer's note: in an E-mail to [redacted] at 5:56 a.m. on June 17, 2006, Keyes wrote...*I will be thinking of you and the dogglets today...camping will be lonely without you guys. Me and [redacted] will have fun...*")

[redacted] referenced another Wilderness Camping Permit issued to [redacted] on 05/27/2006 for a party of 3 at the Garden Island (Lake Ozette) campsite, which the FBI had previous knowledge of as a copy of it was located during a consent search of Keyes' boat. [redacted] searched their local data base with negative results for [redacted] or Keyes, meaning if there was incidental contact with either within the ONP, it was not documented.

The writer also discussed the interview with Keyes on 11/29/2012, where he acknowledged disposing of a body in Lake Crescent. [redacted] was not aware of any missing persons being recovered on Lake Crescent. [redacted] reported that Keyes could have accessed Lake Crescent with his boat from three locations: Barnes Point near the Storm King Ranger Station, the Fairholme Campground or the Log Cabin Resort. [redacted] indicated that it would possible to recover a body from the depths of Lake Crescent, but given the lack of

[redacted] use to be married to [redacted] who was a good friend of
Israel Keyes. [redacted] split up in August of 2006 and [redacted]
later moved to Saint Johns, Newfoundland, where she lives now.

[redacted] recalled meeting Keyes around the time that [redacted] moved
back to Neah Bay, Washington. Keyes made frequent trips to the Reservation,
looking for work. [redacted] recalled that Keyes was not going to move to the
Reservation unless he could find work. Keyes was eventually hired by the
Makah tribe and worked with [redacted] and
Keyes were both supervised by [redacted] Keyes, [redacted]
[redacted] became good friends and would spend time together boating and having
cook-outs together. After Keyes' girlfriend, [redacted] moved to
Alaska, [redacted] advised that she was the only adult female in this group of
friends and became a bit of a "Mom" figure to them.

[redacted] was shocked to learn of Keyes arrest in the kidnapping/murder of
Samantha Koenig and advised that this was not the Israel Keyes that she
knew. [redacted] found out about Keyes' suicide by [redacted]
[redacted] who telephoned her and passed on the news.

[redacted] recalled that Keyes had said that he had grown up in a Mormon
family who later became Amish. Because of the double life that Keyes had
apparently been living, [redacted] questioned the validity of this information.

[redacted] advised that they would spend time with KEYES on a regular basis
and would have cook-outs, bonfires, and go boating together. [redacted] advised
that she still has the digital photographs from some of these events and
provided the following additional information:

[REDACTED] anniversary) that [REDACTED] came over but Keyes was not around. [REDACTED] does not know where Keyes was, but looking back, is suspect of his absence.

July 30, 2005 - Keyes took [REDACTED] and their kids on a boating trip on Lake Ozette. This was a day trip and they did tubing and water skiing. [REDACTED] recalled that Keyes was the only person who water skied, everyone else did tubing.

December 29, 2005 - [REDACTED] held a barbecue at his house which was attended by [REDACTED] and Keyes.

June 23, 2006 - Keyes attended a bonfire, late in the evening, at [REDACTED] house. [REDACTED] could not recall if this was the evening that Keyes was quiet and distant and attempted to brand himself with a metal rod until they intervened. [REDACTED] described Keyes as being in a "daze" during this incident.

June 24, 2006 - Keyes, [REDACTED] and their two boys went boating on Lake Ozette. This was the day that the outboard engine on Keyes' boat blew a rod and they were left stranded on the lake. [REDACTED] stated that she has a photograph of Keyes waving a red flag to get help. [REDACTED] recalled that her and Keyes did a lot of the paddling, trying to get to shore. [REDACTED] does not believe that Keyes ever fixed the engine after this.

[REDACTED] advised that [REDACTED] and [REDACTED] also knew KEYES and may have additional information for Agents.

Following this phone call, [REDACTED] emailed a number of photographs to SA [REDACTED] providing additional information in the e-mail messages. These photographs and e-mail messages were copied and burned to a CD-R and placed into the case file.

This was one of many bonfires at [redacted] house up on the end of 200-Line.

That's [redacted] and I think Iz is sitting back behind [redacted] there.

This was taken late on 23 Jun 2006.

I don't remember if this was the night or not, but there was one night at [redacted] house that Iz was quiet and distant with a metal rod of some sort... like a poker, but different. Might have even been a metal coat hanger straightened out?? He sat there quietly, with the rod in the fire... pulling it out and staring at the tip red with heat. When we saw he took off his socks/shoes and was trying to brand himself with it, we jumped up to intervene. We talked him down out of whatever dazed state he was in, and redirected him to something else.

This is the only thing I can think of during the time that I knew him that seemed really odd.

On the other hand, though, we all had tattoos, and scarification wasn't that far out of our realm of "normal".

[redacted] and I know [redacted] (famous as a member of the Jim Rose Circus, with his piercings, tattoos, scarification, implants, etc.). [redacted] used to be [redacted] roommate way-back-when, and [redacted] grandparents and my parents were once neighbours.

[redacted] had once taken a few runs at tattooing himself, so Iz trying to brand himself didn't actually seem that odd at the time.

In typing this to you, though, I also remember that Iz would distance himself from us every so often, even during a bbq/bonfire, and would start playing Rammstein (music). We'd let him go off into his own world and battle his own inner demons, and then he'd come back to us.

Everyone is screwed up in their own way, though, with their own baggage... but we never had a clue of all these things that have recently come to light about Iz's hidden life.

This was a photo snapped on a phone by [REDACTED] and I on the couch. It was taken inside Iz's home (rented from [REDACTED] late on the evening of 29 Dec 2005. One of just many times we hung out together at Iz's home, there. He renovated that place, adding on an extra room in the back for [REDACTED] (it was originally only one-bedroom). We did cookouts in the back/side yard all the time. Especially while he was taking [REDACTED] Iz became a bit of a "foodie" and we discussed a lot about sauteeing mushrooms a certain way, trying out pinot noir wine and port wine, etc. He and [REDACTED] began collecting wines from places, and it was my understanding that they were doing winery tours in that process.

Was just talking with [redacted] Pretty sure it was our anniversary on 28 Mar 2005 that [redacted] came over, but Iz didn't. Our anniversary in 2004, we went to Vancouver, BC; and then our anniversary in 2006, we attempted to go to Victoria, but [redacted] was denied entry to Canada (for an old misdemeanor assault that didn't used to show up on border crossings before).

One year, on our ([redacted] and my) wedding anniversary, we were knocking around the house with no real plans, and [redacted] came over unexpectedly to hang out. We threw together a quick party. That's standing out at me as an identifiable date, and now seems odd that Iz was *not* there with us. In trying to remember what year that was, I'm not sure whether that was 2005 or 2006 (or maybe even 2004??), but it would have been the 28th of March. It was the night before a work day, though, as I believe all 3 of us had a "sick day" from work the next morning.

On Thursday, December 19, 2012, [redacted], date of birth [redacted]
[redacted] cellular telephone number [redacted] e-mail address [redacted]
[redacted] was interviewed in Neah Bay, Washington. After being
advised of the identity of the interviewing Agents and the nature of the
interview, [redacted] provided the following information:

[redacted] was asked about the condition of the 16 foot Bayliner boat that
was owned by Israel Keyes. [redacted] recalled that the engine was operational
when Keyes acquired the boat but that the boat did need a lot of work.
[redacted] was not aware of anyone who helped Keyes with the re-build of the
boat, noting that Keyes was very self-sufficient. [redacted] did not know where
Keyes purchased the carpeting for the boat, but assumes he likely purchased
it from Home Depot. Keyes kept the boat in the "shop" for some time and
worked on it there. [redacted] was not sure when Keyes took the boat out for the
first time, but believes it was likely when they went out to Lake Ozette
with the boat in July of 2005. [redacted] was there with his son and his brother
and his brother's wife. [redacted] was not sure if [redacted] was also on
the trip.

[redacted] had no specific memory of Keyes boating on Lake Crescent but
would not be surprised if he did, given that Keyes often drove that way to
see [redacted]

[redacted] did recall Keyes and [redacted] fishing on Beaver Lake. However, Keyes
was using his drift boat and was not in the 16' Bayliner.

When Keyes' outboard engine blew the following year while they were on
Lake Ozette, [redacted] stated that Keyes never fixed the engine after this,
noting that the engine was in the same condition when Keyes left him the
boat when Keyes moved to Alaska.

[redacted] had no information regarding the cement anchors that Keyes had
built.

[redacted] stated that [redacted] were two other Tribal
employees who worked with Keyes and who may have information for
investigators. [redacted] phone number is [redacted]

[REDACTED] was shown a couple of pictures of various folding style, Cold Steel brand knives. [REDACTED] stated that Keyes, like his other co-workers, had many knives. [REDACTED] pointed out to the Cold Steel, Recon 1 model and stated that when he went up to visit Keyes in Alaska, Keyes handed him a model similar to that when they were camping. [REDACTED] explained that due to the security measures with the airports, he did not bring his own knives up with him. [REDACTED] used this knife during the camping trip and then returned it to KEYES when he left to fly back home. [REDACTED] showed Agents the knife that he regularly carries. It was a black colored folding knife with a Tanto style blade. It was not a Cold Steel brand however.

[REDACTED] recalled that they had some general conversations about bank robberies, but did not recall Keyes talking about any particular bank robbery.

[REDACTED] was asked about Keyes use of Funeral Leave. [REDACTED] did not recall Keyes taking much funeral leave and did not recall him taking it for his father's funeral. [REDACTED] expressed surprise when Agents told him that Keyes had taken funeral leave often, based on the records provided by the Tribe.

Agents informed [REDACTED] about Keyes use of caches and asked if he had any thoughts on where Keyes may have hidden some local caches. [REDACTED] stated that Keyes often worked on the various trails around the Reservation, including the Shi Shi Trail and the Cape Trail and thought that these would be logical areas.

[REDACTED] expressed surprise when he heard that Agents had discovered that Keyes was not always honest on his time and attendance sheets. [REDACTED] stated that because Keyes was good worker, Keyes was the employee he would often send to Home Depot and similar stores to purchase supplies and other items. [REDACTED] stated that these were the only occasions when Keyes would have been approved to be working away from the Reservation.

[REDACTED] had no information on why Keyes would have been down in the Long Beach, Washington area in January 2004.

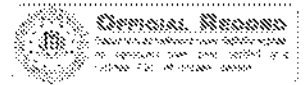

[REDACTED] acknowledged that he and Keyes would sometimes travel out of town together. [REDACTED] stated that at the time, they were both dating women on the East side and that they would do a ride share together. [REDACTED] explained that he would drop off Keyes near Federal Way on these trips. [REDACTED] identified the woman that Keyes was dating at the time as [REDACTED]

[REDACTED] provided Agents with a drop folder containing items related to Keyes. The Agents noted a document showing that Keyes had taken a random, work related drug test at 9:25 AM on May 25, 2004. No other items of interest were noted.

[redacted] are planning a memorial service for KEYES in hopes
that it will give [redacted] some closure. They do not have an exact date, but
it will be after the holidays. Some time after that, [redacted] would like to

used to tell [redacted] that he was not a nice person and that he had a "black

[redacted] asked the interviewing agents questions about the
nature of KEYES' suicide in prison and expressed an interest in knowing the
cause of death. [redacted] was not surprised KEYES committed suicide, only
that it did not happen sooner. She knew he would not survive in prison
because he was not the type of person who could be caged. KEYES had been

She recalled the year because [REDACTED] [REDACTED] in Neah Bay while KEYES took her son KEATON with him to visit family on the east side of the state. KEYES used her vehicle on the trip and since they kept their finances separate, would have used his own means to cover expenses.

[REDACTED] was asked if KEYES ever let her use his cell phone while they were together, or if he ever left it with her for any reason. [REDACTED] was emphatic that he was the only one who ever used that phone, and noted that even though it was a work (tribal) phone, he always had it with him because he was able to use it for personal calls as well.

On Thursday, December 19, 2012, [redacted] date of birth [redacted] residence at [redacted] Neah Bay, Washington, cellular telephone number [redacted] was interviewed in Neah Bay, Washington. After being advised of the identity of the interviewing Agents and the nature of the interview, [redacted] provided the following information:

[redacted] knew Israel Keyes from working for the Makah Tribe and has been following the media stories about Keyes ever since his arrest for the murder of the barista in Alaska.

[redacted] never had any concerns about Keyes and enjoyed working with him. [redacted] explained that his wife had concerns about Keyes and had a "bad vibe" about him. [redacted] explained that Keyes had come down from Alaska for a visit and was at a party at [redacted] house. During the party, they were sitting around a fire, drinking and Keyes and [redacted] wife got into a discussion about a rabbit. During this conversation, Keyes had apparently made a strange expression toward [redacted] wife resulting in the "bad vibe" that she has since felt about him.

[redacted] described a number of practical jokes that they played on Keyes, and that he played on his co-workers. [redacted] described Keyes as being good natured about these jokes and it appeared that Keyes enjoyed his job and his co-workers.

[redacted] had never been boating with Keyes but was familiar with his 16' Bayliner boat. [redacted] believed that the engine ran when Keyes got the boat. However it needed a lot of fixing up and [redacted] recalled that Keyes had re-upholstered the entire boat and put in new carpeting. [redacted] did not recall where Keyes bought the new carpeting from.

[redacted] had no information on when Keyes had made the cement anchors for the boat. [redacted] did recall that shortly after being hired by the Tribe, Keyes worked on a large project at the Farmers Market and had made some columns out of cement. [redacted] recalled that [redacted] had helped Keyes on this project and noted that [redacted] may have additional information for Agents.

[REDACTED] had no information on any caches that Keyes may have hidden in the area. [REDACTED] noted that Keyes often worked alone and had built some brick outhouses near some of the area trail heads to include the Shi Shi and Cape Flattery trail heads.

[REDACTED] noted that Keyes had done a small, home construction project for him and his wife. [REDACTED] could not recall the exact time frame but stated that he would check with his wife and provide the dates at a later time.

at Union Square. The time of day would have been around 8pm to 9:30pm.

[] was at the bar with a co-worker when a fairly drunk man butted into their conversation. They all introduced themselves and he gave the name ISRAEL KEYES and even showed identification because of his unusual name. KEYES said he had hippie parents, the reason for the weird name.

He was very observant; in the brief conversation, which lasted five to ten minutes, he said I bet you are a stock broker.

The man seemed fairly drunk at 9pm. KEYES stated he had also had mushrooms earlier in the evening. He was with a few friends that were asking him to come back with them and stop bothering people.

[] described the man as white, about thirty years of age, with medium to dark longish shaggy looking hair.

Pre-Assessment Findings:

Received On: 12/11/2012

Receipt Method: Telephone

Incident Type: Criminal Activity

Complaint Details:

The information in this communication was received from an MC3 activation.

[] date of birth [] Arlington, WA 98223, telephone number [] reported interacting with a man he believes to be ISRAEL KEYES and multiple murders KEYES may have been committed. [] did not have exact dates for the murders or for his interactions with the MAN he believes to be KEYES.

b6
b7C

[] believes KEYES to be involved in the murder of a 95 year old woman who was raped and killed with an axe in the early 90's in Washington. [] knew the grandson of the woman and the grandson told [] that the killer took the ladies camera. [] picked up a MAN who he believes to be KEYES. The MAN was hitchhiking near Aberdeen, WA. The MAN showed [] a camera and offered to sell it to him for a dollar. When [] saw the camera he got suspicious and got out of the van and started walking

toward the back. When he saw the MAN get out and move to the back of the van, [] jumped back in the van and drove off. He said that the MAN looked like the pictures of KEYES, but that the MAN had fluffy brown hair.

b6
b7c

Between 1992 and 2000, [] lived in Aberdeen, WA; during this time, his girlfriend asked if a MAN could stay at his house for a few days. When [] and his girlfriend were heading out for a day, the girlfriend asked if [] could take the MAN home. The MAN showed [] that he lived in a cabin north of Spokane, WA. [] did not take the man home because he had a weird feeling about him. [] believes that this man is KEYES.

[] claimed that the same MAN that stayed at his house also had a house down the street from [] residence in Aberdeen. The MAN's home had clothes and empty beer bottles everywhere and it gave [] a bad feeling about the MAN. [] also claimed that a girl was beaten, raped, and stabbed to death in the front yard of this MAN's house, estimating this to occur in 1997.

[] believes that the same MAN committed another murder of a 14 year old girl that was shot in the head. This occurred in downtown Aberdeen at a park at 4th and B Street, around the same time as the girl that was killed in the MAN's yard.

[] believes that KEYES was involved in the following murders: the seven Coast Guard employees killed in Seattle, WA at Lake Union in 1995; a man found killed by an axe on Queen Anne Hill the day after the Coast Guard murders; and two women killed above Grand Falls.

Details:

For the information of Anchorage, on 12/20/2012, writer received an e-mail from Detective Lieutenant [REDACTED] of the Essex, Vermont Police Department. The e-mail provided information regarding a phone call that Lt. [REDACTED] received, on 12/19/2012, from an attorney in Vermont, who reported an incident that occurred on an unknown date in the late 1990s during which there was an attempted home burglary at a residence in Richmond, Vermont. The phone lines were cut and the perpetrator was scared off by the home owner. Lt. [REDACTED] e-mail reads as follows:

"I received a phone call from [REDACTED] yesterday. He is an attorney living in Colchester. He called to tell me about an

As he relates the story, [REDACTED] interrupted this nighttime incident by yelling out the window and shining a flashlight on the perp. [REDACTED] yelled, "what do you want"? As the male perp was running away he replied, "you". When the police were summoned to the house they discovered that the phone line had been cut. Apparently [REDACTED] made the connection about the phone lines being cut and figured he would call. [REDACTED] records don't exist before 2003. I couldn't find the [REDACTED] to verify any of this. My guess is that Keyes was in the military in the late 90's..."

On 12/21/2012, writer reviewed a timeline for Israel Keyes which showed that Keyes was in the military from 7/9/1998 until 7/8/2001. The timeline shows that Keyes was residing in the state of Washington during the 1999 and 2000 timeframe. Keyes resided in Constable, New York, from the Fall of 1997 until he joined the military in July 1998. Without additional information, including the date of the attempted home burglary in Richmond, Vermont, there is no way to determine if Keyes could have been the perpetrator of this Vermont incident.

On Tuesday, December 18, 2012, [redacted] date of birth [redacted]
[redacted] residence at [redacted] Edmonds,
Washington, cellular telephone number [redacted] was interviewed at a
coffee shop located in Edmonds, Washington. After being advised of the
identity of the interviewing Agents and the nature of the interview,
[redacted] provided the following information:

[redacted] recalled that when Israel Keyes first got his Bayliner boat,
it had a bad engine that Keyes needed to work on. In addition to the engine
work, Keyes redid the wiring in the boat. [redacted] explained that Keyes had
learned re-wiring from a Tribal dump truck and fuel truck that he worked on
for the tribe. [redacted] had no specific information on where the carpeting
for the boat came from or if Keyes had re-carpeted part of the boat at a
later time.

When asked if he knew whether anyone would have helped him on his boat
project, [redacted] identified [redacted] as someone who may have helped
Keyes with the boat. [redacted] advised that [redacted] was the Lead Transit
Driver in Neah Bay and [redacted] assumes that [redacted] is still living in
there.

[redacted] stated that the "maiden" voyage of Keyes' boat took place in
July 2005 on Lake Ozette. [redacted] advised that Keyes camped with [redacted]
[redacted] at the private campground located behind
the beer store. [redacted] recalled that himself, [redacted] (formerly
[redacted]
[redacted]) were all there for the boating
activities.

[redacted] had little information about Keaton Hawkins only commenting
that he knew that Keyes did not approve of [redacted] parenting style with
Keaton. [redacted] did not recall Keaton spending much time with Keyes.

[redacted] also recalled that [redacted] inherited a boat from her
landlord. [redacted] did not think that the boat was used by [redacted] or
Keyes and may have been just a salvage piece. [redacted] believed that
[redacted] received this boat in the Fall of 2006 or the Spring of 2007.

[REDACTED] was shown a copy of a photograph of the anchor located within Keyes' Bayliner boat. [REDACTED] had no specific information on when Keyes would have made these type of anchors and noted that Keyes had an electronic tumbler so it would have been very easy for him to pour these cement anchors.

[REDACTED] had no memory of KEYES taking any solo trips with the boat or driving it over to the east side of Washington state. [REDACTED] further stated that one of the reasons why Keyes had purchased a larger pick-up (A Ford F-100) was to make it easier for pulling the trailer up to Alaska. The F-100 was purchased by Keyes just months prior to his move up to Alaska. Keyes also drove a black colored, quarter ton, Nissan pick-up, which had front end damage from hitting a deer. Keyes also drove a white colored, late 80's to early 90's GM sedan.

Besides Lake Ozette, [REDACTED] recalled Keyes once talking about taking [REDACTED] out fishing on Beaver Lake. [REDACTED] assumes that Keyes likely boated on Crescent Lake but had no specific information regarding Keyes actually being out there.

[REDACTED] was asked if he recalled what kind of knives Keyes owned. [REDACTED] could only recall that Keyes carried a Leatherman Wave tool, like he did. [REDACTED] was shown some catalog photographs of various models of Cold Steel brand knives. [REDACTED] pointed out the Voyager series with the 5" Tanto style blade and stated that he [REDACTED] owned one like that. [REDACTED] further stated that someone had used it to cut through wire and had badly damaged the blade. The knife had been sitting on his desk at work and when he cleared off his desk when he left the tribe, he noticed it was missing. [REDACTED] assumes that someone had taken it. [REDACTED] recalled that he purchased the knife from an on-line retailer.

[REDACTED] did not know when or from where Keyes got the Iver Johnson .22 pistol that he later left with [REDACTED] believed that it did not function very well and assumed that Keyes had always had it. [REDACTED] also knew Keyes to have owned a Ruger 10/22 rifle and a 30/30 caliber rifle. [REDACTED] did not know Keyes to have any holsters.

[REDACTED] was asked if he knew what Keyes may have purchased from Centurion Tactical. [REDACTED] did not know but stated that he [REDACTED] had purchased two tactical style hip holsters from Centurion.

[REDACTED] had no information on where Keyes may have hidden his caches in the Port Angeles area. [REDACTED] recalled that Keyes talked, in general, about his knowledge of caches and survival stuff. [REDACTED] believed that

Keyes had learned this from his family. [REDACTED] stated that Keyes was in-charge of trail maintenance on the Reservation and would have had easy access to those areas.

[REDACTED] could not recall any specific trips that Keyes had taken out of the area. [REDACTED] did recall that Keyes would tell him that he and [REDACTED] were heading over to the east side of the State for wine tasting tours. [REDACTED] also recalled that after [REDACTED] left for Alaska and after [REDACTED] wife left, Keyes and [REDACTED] would take trips down to the Tacoma area, using the ride share program.

[REDACTED] was asked what he knew about Keyes' involvement with pipe bombs and other explosives. [REDACTED] stated that playing around with that stuff was common out on the Reservation because no one was around to know about it. [REDACTED] stated that he knew that Keyes played around with the powder based explosives but, to his knowledge, Keyes did not play around with the "anfo" based explosives. [REDACTED] had no direct knowledge of Keyes attempting to breach forest service gates or other structures with explosives. [REDACTED] did note that if Keyes wanted to do that, the Reservation would have been a target rich environment.

[REDACTED] was asked about his knowledge of Keyes' involvement in any bank robberies. [REDACTED] stated that Keyes talked about how easy it would be to rob a bank because the bank employees were trained to comply with the robber. [REDACTED] also recalled Keyes commenting that bank robbers did not even need a weapon to pull off a robbery, just a note.

[REDACTED] recalled bumping into Keyes once on the Kingston-Edmonds Ferry. They grabbed a beer and talked during the trip. Keyes told [REDACTED] that he had been out to see [REDACTED] and was heading back to the airport so he could fly back to Anchorage. [REDACTED] assumes that Keyes had a rental car because he was on his way to the airport afterwards. [REDACTED] believes that this occurred during the Summer or Fall of 2008.

On Thursday, January 3, 2013, [] cellular telephone [] was telephonically contacted. After being advised of the identity of the interviewing Agent and the nature of the interview, [] provided the following information:

[] discussed the recent holidays and her decision to cancel the Israel Keyes memorial service which was planned to take place on January 21, 2013 in Neah Bay, Washington. [] stated that she had not yet told Keyes' sister, [] that she had canceled the memorial service but intended to call her today. The writer discussed with [] the return of some personal items that belonged to her and [] and made arrangements to meet in the near future. [] expressed how difficult the media attention has been and how she is still trying to come to terms with everything.

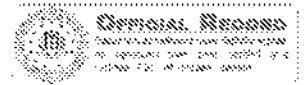

[] advised that she continues to be contacted by Keyes' Seattle based attorneys and stated she is being told by them that she should not be talking with the FBI. [] expressed her dis-trust and frustration with the Seattle attorneys and stated, that despite their recommendations, that she would like to meet with Agents and try to help the families of the other victims (yet to be identified). [] again stated that she is suspicious of a trip that KEYES took in December 2001 and would like to talk to Agents about this trip.

[] asked about the letter that was left behind in Keyes' jail cell, following his death. The writer advised that the letter did not contain any messages to the family but rather appeared to be a composite of victim poetry and anti-American rants. [] expressed no further desire to learn of the note's contents and stated that she was not surprised that there was not a message to the family in it.

[] stated that she did not know what happened to Keyes' computer and believes that he may have taken it back after they split up. [] will look to see if she has any of Keyes' old banking statements or cell phone records.

[redacted] date of birth (DOB) [redacted] home address [redacted]
[redacted] Johnstown, New York, 12095, home telephone number
[redacted] mobile telephone number [redacted] was interviewed at the
New York State Police Fonda Barracks. After being advised of the identity
of the interviewing Agent and the nature of the interview, [redacted] provided
the following information:

[redacted] volunteers at the St. Johns Episcopal Church in Johnstown, New York.
Every Sunday from 12:00-1:00 PM the church operates a program called Needy
Or Alone and Hungry (NOAH). NOAH provides a free meal to anyone who comes
to the church at the above specified time with no questions asked in
regards to their socioeconomic status. The operation is staffed by teams of
church members that cook and operate the kitchen for one Sunday, every 14
weeks.

[redacted] said that on Friday, December 28th, 2012 she was on Facebook and
observed a post on the page Fulton County Living made by "NY-Johnstown".
The post showed a picture of ISRAEL KEYES with long hair, wearing a jacket.
[redacted] stated that she recognized the photo of KEYES as someone she had
served multiple times in the past while volunteering at NOAH. On Sunday,
December 30th, 2012, the Fulton County Living page had a link to a New York
Post article discussing the KEYES case. Both the article and recognition of
the picture prompted [redacted] to contact the New York State Police. (Writer
was contacted on 12/31/12 by Investigator [redacted] of the New York
State Police. Investigator [redacted] arranged this interview with writer,
Special Agent [redacted] Investigator [redacted] and
Investigator [redacted])

[redacted] stated that she remembered serving a male subject that she believed
to ISRAEL KEYES approximately 3 to 4 times. [redacted] said that the last
incident was when she volunteered at NOAH on 8/28/2011. She remembered that
it was during a warm time of the year and that there may have been up to 3
more interactions with the subject prior to that date. The subject was
described as being very polite and that he spoke with an unknown accent.
[redacted] said that he was decently dressed, clean shaven and that he offered
to serve and clean-up after himself. She could remember the table that he
would sit at in the church, but not the other types of people he would sit

(U) a woman caller identified herself as She said the news release said anybody with any knowledge of the subject should call the toll free FBI Tip-line number. She used to live in AK and Mr. Keyes hung a door for her (construction) at one of her rentals in AK back in June 2010. She now resides in MI. I advised if she had any knowledge of the case at hand. She said she knew nothing although she had followed it in the news. She saw the name Israel Keyes and a contractor and felt she should call. NARRATIVE

(U) Female caller identified self as in Anchorage AK. This is probably a coincidence from her perspective. Back on the 03/01/12 she hired a new employee named who migrated from Ft Hood, TX. On second day at work he notified her he had issues with his room mate and was leaving to return to TX. He even said he had the money to make the trip back. She thought this was very strange because he took the job at Burger King (minimum wage), worked a day and quit due to problems with his room mate and moved back to TX where Israel Keyes relocated and was captured for questioning in the Koenig case in Anchorage. (U)The caller takes pictures, seemingly at the request of Author Jim King (?) who says "take a lot of pictures". He goes for coffee to a coffee shop in Fairbanks a good deal. He says that he believes that he took pictures (video?) of a girl who looks like the possible victim and a guy who looks like Israel Keyes, leaving that coffee shop the evening of 02/02/12. The girl was in this guys blue Mercedes (?) Van. She was subdued and wouldn't talk but was mumbling something inside the car. It was inaudible to [redacted] at the time. To quote [redacted] she was acting freaky. She set in the middle of the back seat with her hands in her lap. This guy came out of the coffee, jumped in the van and drove off. Caller says he talked to a female in the FBI earlier about this. [redacted] says he isn't sure what to do with the pics. I advised that he

(U) Caller advised that she works at Alaska Healing Arts Chiropractic at the corner of Laurel and East 42nd in the vicinity of the Tudor and Lake Otis intersection. Caller advised Healing Arts has an employee parking lot in the rear of the building that is a cul-de-sac type lot, utilized only by employees. Caller advised that at approximately 5:45 p.m., one January evening shortly before the KOENIG abduction, she was the last employee to leave work. Caller left the building and was walking across the empty parking lot towards her car when a maroon Jeep Cherokee, license number beginning in "G", entered the parking lot, drove the length of the parking lot, backed up the entire way and parked directly next to her vehicle. Caller said the lone male occupant of the vehicle stared at her and watched her get in to her vehicle. Caller said she found it odd at the time and reported to her coworkers that a strange man was lurking in their parking lot and to be careful when leaving after hours. Caller said, after seeing a picture of KEYES in the Anchorage Daily News, she believes he was the occupant of the Jeep. (FBI - Anchorage at Anchorage JOC) - 03/23/2012 05:05 PM AKDT]

NARRATIVE

(U)On Monday, 03/12/2012, as caller [REDACTED] was leaving the China House (local restaurant) located at 2316 Duss Avenue, Ambridge, PA, he came face-to-face in the doorway with the suspect who

3/26/2012

was entering the restaurant. Suspect was described as having a specific walk--"slew" foot or rock foot clicking his heel and then ball of his foot heavily on the floor as he walked. As they passed, they looked directly at one another. After [redacted] went out the door, he turned around to find the suspect who had also turned and was staring at him. [redacted] said the stare-down between him and the suspect lasted a few seconds and it was obvious the suspect knew he had caught his attention or recognized him. As [redacted] left and entered the parking lot, he noted the same two cars were in the parking lot as when he entered so suspect may have parked across the street at the Co-Go's (convenience store). Caller indicated Co-Go's has security cameras which may have caught the suspect. Caller was "bothered" by the staring incident all evening. On the following morning, caller saw the suspect's mug shot on TV and realized the man he saw at the China House the previous evening may have been [redacted]. The caller called the Harmony PD and reported the incident as soon as he saw the mugshot on TV. He also reported the incident to an Ambridge PD officer in person later that day while he was in the local community office building. Caller advised that the owners/workers at the China House are new to the area within the last year and do not speak English well. [redacted] (FBI - CJIS at FBI CJIS CC) - 03/16/2012 07:03 AM AKDT]

NARRATIVE

(U) Caller [redacted] advised Israel Keyes had done carpenter work several times for him and his wife during summer 2011 and then again in January. [redacted] advised that Keyes was an excellent carpenter who was very competent, timely, and reliable. [redacted] advised that Keyes had agreed to replace some doors and trim molding and had removed one door and taken it to paint. In mid-December, [redacted] and his wife became concerned that they had not heard from Keyes. After the Christmas holidays, the [redacted] called Keyes several times and left messages. Since Keyes was always timely in returning calls and they had not heard from him, [redacted] drove to his home to check on him, but no one was home. [redacted] advised that they had become friends with Keyes [redacted] and had invited them to dinner in their home several times. [redacted] indicated that Keyes had never given them any cause for concern or any indication of instability. [redacted] advised that a mutual acquaintance/friend told him that Keyes had split up with his girlfriend and that Keyes was not taking it well and was drinking. The last date the [redacted] saw Keyes was on January 28, 2012. [redacted] (FBI - CJIS at FBI CJIS CC) - 03/16/2012 09:05 AM AKDT]

NARRATIVE

(U [redacted] called because he saw the information to call if this person had ever worked for you. He stated that he found Mr. Keyes on Craigslist in 2009 because he needed some handyman work done on his cabin in [redacted]. He spent a week there with Mr. Keyes while they fixed up his cabin. Then in 2010 he had Mr Keyes remodel a bathroom while they went to Mexico on vacation. During this time he had the run of the house. Mr Keyes came and left as he wanted. [redacted] was shocked to hear the news this morning as he stated Mr Keyes is a very nice guy and couldn't imagine him being involved in this. He is shocked and anxious to see how it turns out. [redacted] is living in Anchorage while working on the slopes, but he lives in St. Georges, UT as well. [redacted] (FBI - CJIS at FBI CJIS CC) - 03/16/2012 09:41 AM AKDT]

(U) [REDACTED] with many occasions to have personal contact with the family. On the holiday that the family took from 02/02/12 until 02/18/12 she watched their pug dogs. Israel [REDACTED] left on 02/02/12 and [REDACTED] on 02/03/12. [REDACTED] watched the dogs from 02/03/12 until 02/18/12. She was initially only supposed to watch until 02/15/12 but received notice from Israel the family was extending their vacation and not return until 02/18/12. The family apparently went to TX and LA. They took a cruise to Mexico and returned to TX to complete the trip. On 03/08/12 the Israel [REDACTED] left again for TX for a wedding. [REDACTED] stayed at home to take care of the dogs this time. [REDACTED] and really liked Israel. He was a nice guy, good carpenter and loving dad from what she knew. When Israel was working any distance from home he had [REDACTED] call hourly to his cell [REDACTED]

NARRATIVE

(U)An anonymous female caller indicated she works for Spenard's Building Supply in Anchorage. They deal with many local contractors. Looking over some invoices, she noticed that Keyes purchased a lot of supplies in 2009 and 2010 and the first part of 2010, but then really tailed off in the second half of 2011. She said he had one major order on 9/23/11 however, where he purchased many large pieces of lumber, plywood, joists, beams, and several rolls of "hard to stick" tape. This order was delivered to Garage Town in Anchorage. She found this to be perhaps a little bit odd. She said that investigators might want to visit Garage Town. for a trustworthy handyman to do work in their homes.

Mr. Keyes often worked in their homes without supervision/alone. They trusted him to do a good job based upon their experiences with him. They found him to be incredibly responsive and trustworthy.

They found Mr. Keyes to be professional and responsive to their contacting him via phone.

They never noticed Mr. Keyes to have workers. Mr. Keyes was dependable and did great work at reasonable prices.

He was a very nice guy and a pleasure to do business with and to speak to.

A friend of theirs was planning on moving to AK in June and needed work to be completed in his home. Mr. Keyes started several projects but did not complete all of them. When the caller and/or their friend tried to contact Mr. Keyes they received no response from him - which they found to be odd because he had always been dependable and responsive to everyone they knew previously. This was several weeks prior to his arrest.

The caller and his wife are attorneys and are hoping the arrest of Mr. Keyes is in error. They never saw any inappropriate behavior by Mr. Keyes [REDACTED] or other teenagers/nothing suspicious or out of place.

NARRATIVE

(U)The caller was reading comments written on an article about the Samantha Koenig case on the KTVA Channel 11 News website (www.ktva.com) when he saw one that seemed suspicious to him. It was written by someone using Anonymous as their name. Written on Wednesday, February 22, 2012 at 10:36pm "If the authorities get a change, check Mulato Drive in the small town of North Pole or any roads leading there." The caller thought this needed to be checked out because it didn't seem right to him and didn't fit in with the other posted comments. In late 2011, Keyes had Spenard's Building Supplies deliver equipment, "or something," to a Garagetown. [REDACTED] stated that there is a Garagetown on the south side of Anchorage. She stated that these are similar to storage rentals only they are garages which can have utilities ran to them.

She wanted to pass this along and will forward the email (along with any others) to an agent, if interested.

Details:

Israel Keyes, subject of captioned case, is suspected of the murder of approximately eleven people throughout the United States. Keyes was arrested on 3/13/2012 in Lufkin, TX for using the ATM debit card of Anchorage kidnapping/murder victim Samantha Koenig. After his return to Anchorage, Keyes talked with agents numerous times until he committed suicide in his jail cell on 12/2/2012. Prior to his death, Keyes admitted to the murder of Koenig and Bill and Lorraine Currier in Essex, Vermont. Keyes also provided information about five other homicides - four in Washington and one in New York. Keyes provided some details of the murder of these five victims but not enough to locate their remains.

Investigators believe they have identified the victim in the New York homicide. Prior to his death, Keyes provided some confirmation of

Hello,

Has VICAP compared Israel Keys to our 2006 unsolved murder of an elderly couple? Our case (06-3486) is in VICAP and I was curious if there was any connection noted. I was told that Keys confessed to murdering an elderly couple back east. Our case seems to have similarities, at least from the news accounts I have read.

Thank you for helping with this-

Washoe County Star

This what I was sent by my partner-

The "long shot" serial killer we talked about was Israel Keyes (WMA, aged 34). He committed suicide in jail December 1st in Anchorage, AK.

Reading about what he's confessed to in several media reports the double murder in Essex, VT where he just picked out a house with an elderly couple, cut the phone lines, kidnapped, shot and killed the two victims had me thinking about the Musalo double murder back in 2006 (WC06-3486).

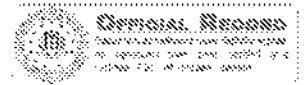

I did notice in the news report that the FBI supposedly sent out a list of where he went on 35 different trips over the past 8 years, so I don't know if we've gotten it and dismissed the possibility of a case locally or we're not on the list.

I checked Tiburon and there's no listing for him under the name we have.

Here's a link to the ABC news story. <http://abcnews.go.com/US/alaska-serial-killer-israel-keyes-committed-suicide-hidden/story?id=17883891>

Again it's a long shot, but last time I check our case was going no where

Work History

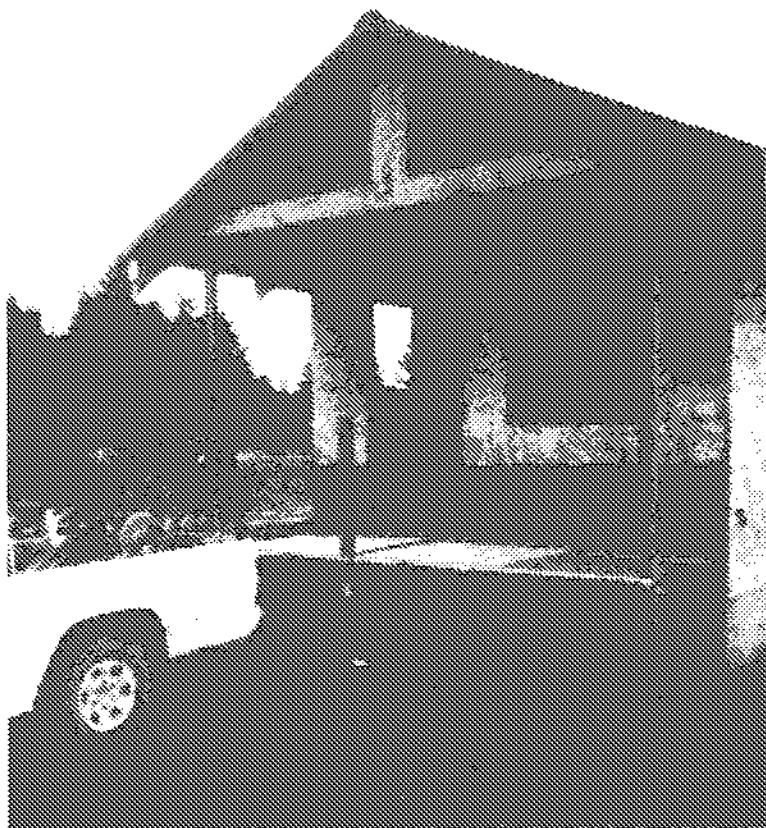

1995-1997: Worked for a General Contractor by the name of Kelly Harris in Colville, WA. on a seven man crew. Building approximately 6 duplex/spec. Stick frame and log homes a year.

1998-2000: Served three years in the Army Infantry and was stationed in Ft. Lewis, Ft Hood, and Sianai, Egypt. Honorable discharge in June 2000.

2001-2007: Worked for the Makah Tribal Council in Neah Bay, Wa. as the lead in their brand new Parks and Recreation dept. Built many trails, recreational buildings and assisted the public works department in times of need or emergency situations.Coordinated the purchase, maintenance, and operation of machinery and equipment including a pump truck and portable as well as permanent remote toilet facilities.Neah Bay is a very small village and my position with the Tribe and the projects that I completed for them gave me a excellent reputation with the locals.This allowed me the unique opportunity to do a wide variety of construction projects for many customers on weekends.

2007---Moved to Alaska and started my own business (Keyes Construction) And have yet to have a dissatisfied customer! Look forward to hearing from you.

WHILE EN ROUTE TO THAT LOCATION. AZLE POLICE DISPATCH ADVISED THAT THE SUSPECT WAS WEARING A WHITE CONSTRUCTION HELMET, A WHITE OR BLUE PAINTERS MASK, BLUE JEANS, AND CARRYING A GREEN BAG POSSIBLY IN THE AREA OF THE POST OFFICE (ADJACENT TO THE BANK).

SEVERAL AZLE POLICE OFFICERS WERE IN THE AREA TO LOCATE THE SUSPECT, BUT NO SUSPECTS WERE FOUND AT THE SCENE OR THE SURROUNDING AREA.

I THEN MADE CONTACT WITH ONE OF THE WITNESSES INSIDE THE BANK DURING THE ROBBERY. [REDACTED] W/F DOB [REDACTED]

[REDACTED] INFORMED ME THAT SHE WAS STANDING AT THE 2ND TELLER COUNTER FROM THE RIGHT TALKING TO HER MOTHER. [REDACTED] W/F DOB [REDACTED] WHEN AN UNKNOWN SUSPECT ENTERED THE BANK THROUGH THE FRONT DOOR. SHE DESCRIBED THE SUSPECT AS APPROX 6 FT. 165-170 LBS. WEARING A WHITE CONSTRUCTION HELMET, A WHITE OR BLUE PAINTER'S MASK, CANVAS WORK GLOVES, SUNGLASSES, FADED BLUE JEANS, WEARING WHITE SNEAKERS, HOLDING A STAINLESS HANDGUN IN HIS RIGHT HAND. SHE FURTHER DESCRIBED THE HANDGUN AS A SEMI-AUTOMATIC STAINLESS BUT BRUSHED DESIGN, AND ALSO THE BLACK PART OF THE BOTTOM OF THE MAGAZINE WAS WHICH WAS LOADED INSIDE THE HANDGUN.

[REDACTED] STATED THAT THE SUSPECT BEGAN YELLING TO EVERYONE INSIDE THE BANK TO GET ON THE GROUND.

[REDACTED] ADVISED THAT SHE SLOWLY LOWERED HERSELF TO THE FLOOR AS SHE DID NOT REALIZE AT FIRST THE BANK WAS BEING ROBBED.

[REDACTED] THEN STATED THAT THE SUSPECT NOTICED SHE DID NOT LOWER RIGHT AWAY, AND SO HE POINTED THE GUN DIRECTLY AT HER IN ORDER TO GAIN COMPLIANCE WITH HIS DEMANDS.

[REDACTED] ADVISED THAT SHE WAS IN FEAR FOR HER SAFETY.

THE SUSPECT THEN SHOUTED "NO ALARMS, NO POLICE CALLS, NO DYE PACKS, NO TRACERS!" TO THE EMPLOYEES.

[REDACTED] INFORMED ME SHE THEN BACKED HERSELF AGAINST THE WESTERN WALL INSIDE THE LOBBY NEXT TO THE COUNTER STILL SITTING DOWN WHERE SHE COULD OBSERVE THE SUSPECT.

SHE ADVISED THE SUSPECT ATTEMPTED TO GAIN ACCESS TO THE VAULT, BUT COULD NOT DUE TO THE FACT THE EMPLOYEES DID NOT HAVE ACCESS TO THE VAULT.

MEANWHILE, THE TELLERS PUT MONEY ON THE COUNTER.

THE SUSPECT THEN BEGAN PUTTING THE MONEY FROM THE COUNTER INTO THE GREEN

CANVAS BAG USING HIS RIGHT HAND. STILL MAINTAINING CONTROL OF THE HANDGUN.

AFTER THE SUSPECT FINISHED PUTTING THE MONEY IN THE BAG, HE AGAIN STATED THAT IF ANYONE IN THE BACK ATTEMPTED TO CALL THE POLICE, HE WOULD RETURN.

[REDACTED] ADVISED THAT HE EXITED THROUGH THE FRONT DOOR AND TURNED TO THE RIGHT (WESTBOUND). AT THAT TIME NO ONE IN THE BANK KNEW WHERE THE SUSPECT WENT.

[REDACTED] ALSO ADVISED THAT THE SUSPECT DISPLAYED THE HANDGUN THROUGH OUT THE COMMISSION OF THE ROBBERY.

I ALSO SPOKE WITH AN [REDACTED] W/M DOB [REDACTED] AT CELL FIXX (CELL PHONE REPAIR STORE AT 404 COMMERCE ST) DIRECTLY ACROSS THE STREET FROM THE BANK.

HE INFORMED ME THAT AN APPROX 1232, HE OBSERVED A WHITE MALE WEARING A BLUE BUTTON UP SHIRT, BLUE JEANS, BLONDE "SHAGGY" HAIR, DRINKING AN ENERGY DRINK AND SMOKING A CIGAR ON THE EAST SIDE OF THE BUILDING FROM A CAMERA MONITOR FROM INSIDE THE STORE.

NOTE: THERE IS NO RECORDING FROM THAT CAMERA OF THE SUSPECT.

HE STATED IT WAS SUSPICIOUS DUE TO THE FACT NO ONE IS NORMALLY IN THAT AREA.

HE FURTHER STATED THAT THE WHITE MALE WAS STANDING NEXT TO A DARK COLORED SUV, POSSIBLY A KIA SOUL. HE ALSO ADVISED THAT BOTH LP'S WERE COVERED IN MUD, AND APPEARED TO BE ON PURPOSE AS NO OTHER PART OF THE VEHICLE WAS DIRTY.

I THEN SPOKE TO AN EMPLOYEE FROM THE BJ CLARK MACHINIST COMPANY ON PROFIT ST. [REDACTED] HISPANIC MALE DOB [REDACTED] WHO INFORMED ME THAT AT APPROX 1200 HE TURNED ON COMMERCE ST EASTBOUND (TOWARD FM 730 N). WHEN HE OBSERVED A RED FORD ESCORT APPROX 1995-1996 MODEL, PARKED BEHIND A DARK COLORED KIA SOUL NEXT TO THE CELL FIXX BUILDING.

[REDACTED] ADVISED THAT HE OBSERVED A W/M STANDING NEXT TO THE KIA SOUL SPEAKING WITH ANOTHER PERSON SITTING INSIDE THE KIA IN THE DRIVER SEAT.

[REDACTED] DESCRIBED THE W/M AS WEARING BLUE JEANS, BROWN BOOTS, A CREAM COLORED COWBOY HAT, A DARK BUTTON UP SHIRT, AND A BLONDE BEARD.

[REDACTED] BOTH FILLED OUT WRITTEN STATEMENTS WHICH ARE ATTACHED TO THIS REPORT.

ALL OTHER INFORMATION PERTINENT TO THIS CASE HAS BEEN FORWARDED TO THE FBI TASK FORCE, WHICH HAD MADE SCENE FOLLOWING THE INCIDENT.

While standing at [redacted] teller window, a gentleman came in through the front door. Wearing a white hardhat, blueish painters mask, canvas work gloves, glasses, light blue denim button down, jeans and white sneakers a man with a silver in color hand gun ordered everyone on the floor. Not realizing what was going on, I didn't get on the floor immediately. After the man pointed his gun at me, I slowly walked to the end of the teller line and sat with my back against the wall palms down. He ordered all the tellers to get on the floor. "No alarms, no police calls, no dye packs, no tracers. Place all of the money on the counter." After taking the money and putting it in a green canvas tote, he asked where the rest of the money is, and how to get into the vault [redacted] told the man "We don't have access to the vault." The man asked where the rest of the tellers were and [redacted] told the man, "We are a small branch and these are all the employees." "Do not set any alarms or call the police or I will come back." Upon exiting the bank, the man walked to the right of the door and out of view.

Details:

Israel Keyes, subject of captioned case, is suspected of the murder of approximately eleven people throughout the United States. Keyes was arrested on 3/13/2012 in Lufkin, TX for using the ATM debit card of Anchorage kidnapping/murder victim Samantha Koenig. After his return to Anchorage, Keyes talked with agents numerous times until he committed suicide in his jail cell on 12/2/2012. Prior to his death, Keyes admitted to the murder of Koenig and Bill and Lorraine Currier in Essex, Vermont. Keyes also provided information about five other

Re: 306-AN-15642, 01/10/2013

homicides - four in Washington and one in New York. Keyes provided some details of the murder of these five victims but not enough to locate their remains.

Keyes traveled to Texas in February 2012 to visit family in the Wells, Texas area. This trip immediately followed the kidnapping and murder of Koenig on 2/1/2012. Keyes described being excited and full of adrenaline while in Texas. He left his family for several days with the intention of looking for another victim. During this 3 to 4 day period, Keyes admitted to burglarizing and setting a house on fire in Aledo, Texas and robbing a bank in Azle, Texas. Keyes became very evasive when asked about committing a murder. This avoidance continued during the months that investigators met with and interviewed Keyes. Keyes did admit to being in the Cleburne, Texas area and stated he got stuck in the mud with his rental car for several hours. He told family members that someone helped pull him out of the mud but denied this to law enforcement saying he got out himself. Agents found a photograph of Mapquest directions to Post Oak Cemetery in Glen Rose, Texas on Keyes cellphone. When questioned about this, Keyes laughed and said he thought he deleted the photos but offered no explanation. In other interviews, Keyes talked generally about where he went to look for victims and he mentioned cemeteries because people often visited them alone and it was a place he could be by himself and not look suspicious. He also noted the caretaker sheds at cemeteries are easy to break into. For these and other reasons, agents believe Keyes may have murdered someone in Texas on this trip.

Anchorage is requesting the assistance of the Dallas Division/Ft. Worth RA in releasing information to the media in the Johnson County area about Keyes during this time frame in an effort to determine if anyone saw him or his vehicle or had an encounter with him. Anchorage Division has attached a proposed/draft media bulletin for Dallas to consider. Anchorage has utilized the 1-800-CALL-FBI tipline for this case throughout the country and it has worked well. That is an option

For Immediate Release

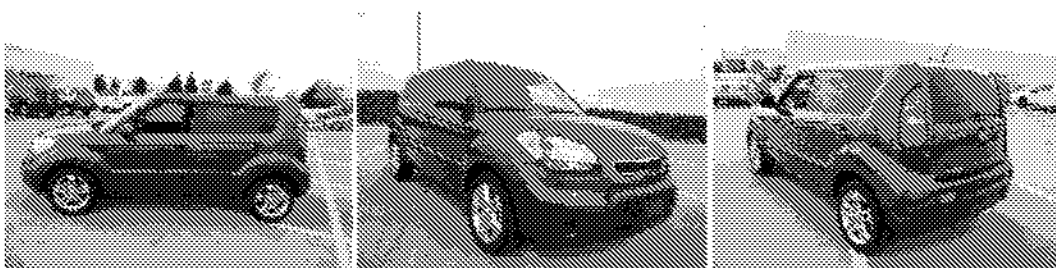

FBI Requests The Public's Assistance

Diego Rodriguez, Special Agent in Charge for the Dallas Division of the Federal Bureau of Investigation (FBI) requests the public's assistance in developing information concerning the travels and activities of serial killer ISRAEL KEYES, deceased.

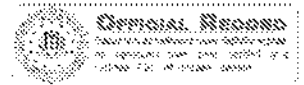

Investigators suspect Israel KEYES' rental vehicle became stuck in mud in a rural area in Johnson County, Texas, possibly near Cleburne, sometime between February 12 and 16, 2012. Investigators are seeking the identification of any person from whom KEYES may have obtained assistance or anyone else having contact with KEYES or his vehicle during that time. Keyes is also suspected of visiting Post Oak Cemetery in the Glen Rose, TX area during this time frame.

Title: (U) Possible Israel Keyes Sighting in 2001-2002

Re: 306-AN-15642, 01/03/2013

I had a possible run-in with Israel Keyes out on the peninsula of Washington in late 2001 or 2002. I wavered on if I should write/call or not, because I'm not positive it was him and I didn't want to waste any of the Bureau's time if isn't something which assists- and it doesn't seem like this helps anybody out much. My mom, husband and best friend told me I should, though. So I hope that this is useful.

I paused at the Shell station in Clallam Bay to fill my gas tank at around 9:00 at night in either late 2001/early 2002 or possibly late 2002. There was a man in a truck who was parked in the strip mall there, and nobody else was around. I don't remember many details about the truck but I want to say it was a mid-sized truck- like an F150 size, maybe a little bigger. When I left, I was surprised to see him pull out onto highway 112 behind me. At the junction of 112/113, I kept on 112 and headed east. He took the same route. For the next forty miles, he would pass me when he could and then slow down in front of me... very slow. To about 5 miles per hour, and look in his rear view mirror at me. He stopped several times in our lane, and I was forced to pass him. The final time he pulled in front of me, he got out of the truck and stood beside his driver's side door and looked back at me. I remember he was notably tall (above 6'0, below 6'3, I'd say), and he was slender to average build, but I don't remember his face. It was very dark, and raining, and cold. He raised his hand as if to wave me to stop and I drove past him, though he stepped toward my car. He did not seem drunk- didn't drive erratically aside from trying to get me to stop, and when he got out he seemed sure-footed. He followed me for another several miles but didn't try to pass again. He got close enough that I could not see his headlights any longer. I raised my cellphone and illuminated it, waved it in the window so he could see I had a phone. I had no service but I pretended to call on it. We reached a pull-out right before highway 101 intersects with 112 just west of Port Angeles. He pulled over on the north side of the road, turned around, and headed back west, toward Clallam Bay. I did not get the license plate number, as I was extremely shaken and had no pen/paper on hand without having to take my eyes off of whatever he was doing. I checked

my vehicle in Port Angeles for anything wrong with it- there was nothing legitimate to flag me over for that had anything to do with my car malfunctioning. I didn't call the police because I figured they'd just discount it as a drunk or laugh at me for being paranoid or something. At the time, I would have been 19 or 20, an average-built female who is 5'5".

The dates I have it narrowed down to would be (roughly) November 2001 - (roughly) April 2002, or possibly between September and December 2002. I took frequent trips out to the area and can't remember specific dates for this incident. Between 2000 and early 2003, I lived part-time in Seiku and spent a lot of time between Neah Bay and Lake Ozette hiking.

Again, I hope that somehow this information is useful in some way.

Search Report**

October 23-24, 2012

Background

As reported to the Forensic Canine Program, this case relates to the investigation of suspected serial killer Israel Keyes. Keyes has been arrested in relation to the 2012 abduction and homicide of Samantha Koenig in Anchorage, Alaska.

Subsequent to his arrest, Keyes admitted to the homicide of Koenig, as well as the 2011 homicides of Bill and Elaine Currier, in Vermont.

Keyes further alluded to committing multiple homicides over a period of the last fourteen years.

Keyes owns a property at 511 Poplar Street, Constable, New York, a ten acre farm which includes a dwelling house and two outbuildings to which the suspect had access.

On October 23-24, 2012 the Victim Recovery Team (VRT) provided search assistance in the coordinated search phase of the investigation. The following is the VRT search report.

Summary of Canine Search Results

511 Poplar Street, Constable, New York

FBI Evidence Response Team Unit, Forensic Canine Program, Victim Recovery Dogs 'Morse' and 'Missy' supported by ERT search teams, were utilized in the search of the ten acre site.

The dwelling house and two outbuildings were searched with no positive final responses forthcoming.

The remaining acreage of forest was searched in gridded sections with no positive final responses forthcoming.

The Human Blood Detection Dog was utilized to screen a number of items of property found at the site as well as areas of interest at the site with no positive final responses forthcoming.

Methods

The Victim Recovery Dog (VRD) is trained, blind and double blind proficiency tested and certified, to detect the odor of decomposing human remains, human bone, teeth and human blood to a very low residual odor threshold. The VRD's are deployed off-leash under the directional control of the handler. The VRD's are trained to offer an identifiable positive final response when in the presence of human decomposition odor.

The VRD's are trained, proficiency tested and certified not to offer a final response in the presence of other distracter odors including that of animal decomposition.

In the absence of human blood, positive responses by the VRD tend to suggest the presence of human decomposition.

The Human Blood Detection Dog (HBDD) is trained, proficiency tested and certified to detect dry human blood. The low threshold detection capability of the dog enables it to detect such small quantities of dry human blood that may be invisible to the naked eye. The HBDD is

deployed off leash under the directional control of the handler. The HBDD is trained to offer an identifiable positive final response indicating the location of dry human blood.

The HBDD is trained, proficiency tested and certified not to offer a final response in the presence of other distracter odors including that of animal blood.

The VRD and HBDD are trained to generalize human decomposition and human blood odor. The dogs do not respond to the odor of an individual deceased person but to generic human decomposition. Additionally, Human decomposition odor and human blood may be transferred from person to object and object to object. As such, all positive final responses must be thoroughly investigated to determine their relevancy. Odor may be present in or on items associated with a crime or may have a plausible and innocent explanation.

The VRD and HBDD are deemed to be proficient and considered presumptive test resources, (*reasonable basis for belief or acceptance*). As such all positive final responses must be thoroughly investigated to determine their relevancy and must be interpreted by the application of forensic corroboration, anecdotal witness evidence and case intelligence.

The VRD and HBDD training, proficiency testing and certification records are available if required. They indicate that the dogs were performing proficiently prior to and following deployment in this case.

SERIAL KILLINGS - VIOLENT CRIMINAL THREAT

Date specimens received: October 16, 2012

The specimens listed below were examined in the Latent Print Operations Unit:

Q260 Knife (1B148, E5123308)

Q261 Sheath (1B148, E5123308)

This report documents the friction ridge print examinations.

Results of Examinations:

The requested latent print examinations were conducted, but no latent prints of value were detected.

Methods:

Items of evidence submitted to the Latent Print Operations Unit for examination may be examined visually, examined with various light sources, and/or processed with chemicals and

UNCLASSIFIED

powders to detect the presence of latent friction ridge prints. The specific sequence of examinations and processes depends upon the nature of the evidence.

Friction ridge print examinations are conducted using the Analysis, Comparison, Evaluation, and Verification methodology (ACE-V), which includes an assessment of the quantity and quality of the information present. The steps of ACE-V are applied to each examination as appropriate.

Analysis is the assessment of a friction ridge print to determine if sufficient reliable details are present to conduct a comparison with another print and to reach an identification conclusion. If these conditions are met, the print is determined to be of value.

Comparison is the direct side-by-side observation of friction ridge prints of value to determine whether or not the information in two prints is in agreement.

Evaluation is the formulation of a conclusion based on the information gathered during the analysis and comparison of the friction ridge prints.

Conclusions that can be reached are as follows:

- Identification - the determination that there is sufficient quality and quantity of detail in agreement to conclude that two friction ridge prints originated from the same source.
- Exclusion - the determination that there is sufficient quality and quantity of detail in disagreement to conclude that two friction ridge prints did not originate from the same source.
- Inconclusive - the determination that corresponding areas of friction ridge prints are absent and/or unreliable and therefore cannot be identified or excluded.

Verification is the independent application of the analysis, comparison, and evaluation phases of the ACE-V methodology to a friction ridge print by another examiner.

Interpretations:

Due to the many factors involved in the deposition of a friction ridge print, neither the absence of a friction ridge print on evidence nor the exclusion of a friction ridge print with a given source disassociate that source from having touched the evidence.

Subject: Israel Keyes death notification

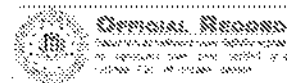

1. I Trooper [REDACTED] was on routine patrol Sunday, December 2, 2012 approximately 11:09 am. I received a call from Lufkin Communications in reference a death notification.
2. I contacted Ranger [REDACTED] approximately 11:11 am. Ranger [REDACTED] gave information, per email, pertaining to next of kin to be notified and location of next of kin.
3. I arrived in Wells and located [REDACTED] Israel Keyes mother, at her residence, [REDACTED]
[REDACTED]
4. [REDACTED] was notified of her son's death approximately 11:45 AM.
5. [REDACTED] put her head down and asked if she could pray for a moment. She walked to the corner of her home and stood there silent with her head down for several minutes.
6. Several people from the house next door exited and stated they were her Church family.
7. [REDACTED] returned to my location and asked for details of Israel Keyes death. I explained to her I did not have the details of his death and she was asked to contact Deputy US Marshal [REDACTED] for more information. [REDACTED] was given Deputy US Marshal [REDACTED] contact phone number along with Ranger [REDACTED] contact information.
8. I ensured [REDACTED] would be taken care of and comforted by her Church family and left the residence.

As requested in Lead 63, on January 17, 2013, writer interviewed [REDACTED] who was accompanied to the Lufkin Resident Agency by his wife, [REDACTED] stated he met ISRAEL KEYES for the first time in February, 2012, during KEYES' visit to Grand Prairie/Wells, Texas. [REDACTED] saw KEYES for the second and last time in March, 2012, when KEYES traveled to Wells, Texas, to attend [REDACTED] and [REDACTED] wedding. KEYES was arrested by Texas authorities during that visit.

[REDACTED] was born and raised in Saranac, New York, and currently owns property there; however, although the KEYESes at one time lived

approximately 30 miles from [REDACTED] in Constable/Tupper Lake, New York, and KEYES owned property there for the past several years, [REDACTED] did not know any member of the KEYES family until March, 2011, when [REDACTED] moved from New York to Grand Prairie, Texas. In [REDACTED] brief encounters with ISRAEL KEYES, they did not discuss [REDACTED] property in New York, and to [REDACTED] knowledge, KEYES was not aware [REDACTED] owned the property and never visited the property. KEYES also did not discuss with [REDACTED] any areas around Tupper Lake which he may have visited or frequented. (The details of the full interview with [REDACTED] are contained in an FD-302.)

A the request of SA [REDACTED] on Tuesday, January 15, 2013, writer delivered to [REDACTED] a packet of letters written by KEYES family members to KEYES during his incarceration in Alaska, along with a copy of the note (and transcript of the note) written by KEYES and recovered from KEYES' cell on the day KEYES committed suicide. While visiting with [REDACTED] she indicated she had not read or heard any media reports regarding KEYES' criminal activities as she did not receive the newspaper, did not own a television, and did not know how to use a computer. [REDACTED] did not want to ask her children or church members to obtain news articles for her; however, she desired to read news releases and other information regarding KEYES' criminal activity. Until writer's visit, [REDACTED] was only aware that KEYES had committed the murders of SAMANTHA KOENIG and the CURRIERS and was unaware that KEYES had likely committed additional murders. [REDACTED] indicated she had visited with KEYES' defense attorneys on a number of occasions since KEYES' death. The attorneys provided [REDACTED] with no information regarding KEYES' crimes, and they discouraged her from cooperating with law enforcement in this matter. However, [REDACTED] indicated a desire and willingness to assist law enforcement in any way possible in identifying additional KEYES victims.

After consulting with SA [REDACTED] writer printed recent press releases and approximately five or six news articles regarding the abductions and murders of KOENIG and the CURRIERS, as well as a press release requesting the public's assistance in identifying KEYES' first

[REDACTED] indicated she would review the information and consult with other family members in an effort to recall any information which may assist law enforcement in their endeavors to identify additional KEYES victims. During [REDACTED] interview, writer provided to [REDACTED] a copy of a press release issued to Texas media outlets on or about January 16, 2012, requesting the public's assistance in identifying KEYES' activity in Texas during February-March, 2012, and [REDACTED] agreed to provide the press release to [REDACTED]

[redacted] and his wife, [redacted] voluntarily appeared at the Lufkin, Texas, office of the Federal Bureau of Investigation (FBI), at which time they were advised of the identity of Special Agent (SA) [redacted] FBI, Dallas Division - Lufkin, Texas, Resident Agency. Joining the interview shortly after its start was Texas Ranger [redacted] Lufkin, Texas. [redacted] provided the following information:

[redacted] grew up and lived until the age of 23 in Saranac Lake, New York, approximately 30 miles from Tupper Lake, New York. Approximately four years ago, while in New York City, [redacted] met several men who were preaching the Gospel of Christ on the sidewalk. Through his association with the men (whom [redacted] referred to as elders), [redacted] became a Christian. At that time the men had no established church, but God led the elders to Arlington/Grand Prairie, Texas, where they established the Church of Arlington. [redacted] (along with [redacted] [redacted] moved to Grand Prairie in March, 2011, at which time [redacted] became acquainted with [redacted] and several of her family members, including [redacted]

[redacted] stated her father purchased a piece of property near Tupper Lake, New York (specifically in Constable, New York) several years ago, and upon her father's death, her father willed the property to her brother, ISRAEL KEYES. [redacted] and her family only lived on the property for approximately one year (during an unrecalled time frame). [redacted] reiterated that although [redacted] grew up near Tupper Lake, New York, he had not met and did not know any of the KEYES family until March, 2011.

The first time [redacted] met ISRAEL KEYES was in February, 2012, when KEYES visited Grand Prairie, Texas. To the best of their recollection, KEYES and [redacted] arrived in Grand Prairie on a Saturday, at which time they had dinner with [redacted] and other family members. KEYES was driving a Kia Soul-type vehicle, color unrecalled. During the evening [redacted] had discussions regarding God with KEYES, as well as general conversation. They discussed topics such as the weather, fishing and hunting, and the cruise from which KEYES had just returned.

KEYES indicated he was planning to move back to the lower 48 states and told [REDACTED] he had brought several guns with him on the February, 2012. [REDACTED] offered to keep the guns for KEYES; however, KEYES indicated he preferred to bury the guns somewhere in Texas. KEYES stated he brought the guns with him from Alaska because it would be easier to fly them to Texas than to drive them through Canada during his move. [REDACTED] never saw the guns but assumed they were hunting rifles. [REDACTED] indicated if he had seen KEYES in possession of handguns/pistols, he may have questioned why KEYES had those types of weapons. [REDACTED] stated he now knows KEYES used handguns during the commission of his crimes and that he buried guns and other items associated with his crimes.]

KEYES remained in Grand Prairie on Sunday, continuing to visit throughout the day. On Sunday evening, [REDACTED] and others went to a church meeting, and KEYES [REDACTED] stayed at the house. [REDACTED] recalled that at some point while visiting with KEYES about KEYES' salvation, KEYES told [REDACTED] words to the effect, "You don't know who I am and what I have done." At the time KEYES made the statement, [REDACTED] did not even consider that KEYES was involved in violent crimes.

KEYES was supposed to visit the family in Grand Prairie for three or four days; however, KEYES disappeared on Monday, leaving a note on his bed stating he would be gone for a while looking for a place to bury his guns. [REDACTED] were in the process of moving to Wells, Texas, and they left Grand Prairie prior to KEYES returning to the house. They later learned KEYES had been gone for two or three days, claimed he got his car stuck, and had to be picked up near Cleburne, Texas, by [REDACTED] (who was possibly accompanied by [REDACTED]).

Upon their arrival in Wells, Texas, during the week of February 13, 2012, [REDACTED] moved into a rented house on 6th Street. Later that week, KEYES [REDACTED] stopped at the rent house in Wells on their way from Grand Prairie to Houston to catch a flight back to Alaska. KEYES patched a nick in the windshield of his rental car while at [REDACTED] house in Wells.

[REDACTED] did not note anything unusual or out of the ordinary in KEYES' behavior during the February, 2012, visit. [REDACTED] never looked in KEYES' vehicle, and he did not see KEYES with any tools, a white hard hat, or anything else which would have been unusual for him to have. [REDACTED] stated there was a shed beside the house in Grand Prairie, and if KEYES took anything from the shed during the February, 2012, visit, [REDACTED] was unaware of it.

KEYES returned to Texas for [REDACTED] wedding in

March, 2012, at which time KEYES was arrested by Texas authorities. Again, during the March, 2012, visit, [REDACTED] did not note anything unusual or out of the ordinary in KEYES' behavior.

[REDACTED] traveled to Maine in September, 2012, for the purpose of selling [REDACTED] property. While there, they drove to Saranac and Constable, New York. [REDACTED] visited KEYES' property in Constable, which was the first and only time [REDACTED] had ever been on the property. The house on the property was in severe disrepair, with the doors falling off and windows broken out. They explored the house for a while, looking through books, etc., and other than possibly someone vandalizing the property, the house looked as though no one had been in it or inhabited it for a long time. In fact, it was their opinion the house was uninhabitable. The only items [REDACTED] removed from the property were a couple large cans of corn.

[REDACTED] reiterated he first met ISRAEL KEYES in February, 2012, and had limited contact with him during that visit and KEYES' subsequent visit in March, 2012. At no time did [REDACTED] and KEYES discuss the fact that [REDACTED] owned property near Tupper Lake, New York. The only hunting/fishing stories KEYES told [REDACTED] related to KEYES' fishing experiences in Alaska. KEYES did not discuss with [REDACTED] any areas around Tupper Lake he may have frequented or visited for hunting, fishing, camping, or any other purpose.

Details:

On January 9, 2013, Criminal Intelligence Analyst [REDACTED] with the Wyoming Division of Investigation contacted Special Agent [REDACTED] [REDACTED] regarding three Wyoming homicide cases to compare to the timeline of Israel Keyes.

b6
b7C

SOS [REDACTED] responded by e-mail to Analyst [REDACTED] regarding the three cases. The first two cases, Keyes can be placed in Anchorage by means of financial records. For the third case, a specific date was not given for the month of April 2007. Keyes was in Alaska until April 24, where he then flew to Oakland, California, traveled to Washington state, and returned to Anchorage on May 4. SOS [REDACTED] advised Analyst [REDACTED] that if she had more specific information on the April 2007 murder and it was during the time that Keyes was out of state, further research will be done on that trip.

Hi [REDACTED]

Here are some possible cases to compare to Israel Keyes so far. The requests are still out there:

1. [REDACTED] has not been seen or heard from since 4 pm on Saturday, September 19, 2009. [REDACTED] is a [REDACTED] year old white female, approximately 120 pounds, five foot five inches tall with brown hair and green eyes. [REDACTED] may be wearing a wig, glasses and or other disguises. She was last seen wearing an off-white Cloudveil fleece hooded sweatshirt. [REDACTED] left the resort she was staying at on foot and has not returned for her vehicle. She may be using public transportation, taxi services, a driving service (limo, etc) or out of areas transportation services as a means of transportation.

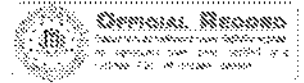

2. Black Lexus sedan [REDACTED] found on 09/26/2010 on Craig Pass, located on the lower grand loop road of Yellowstone National Park, WY. Registered owner [REDACTED] Multiple searches and investigation ensued by National Park Service with no leads. Reference case #12-5951. [REDACTED] was last seen by family in Burtonsville, MD. It is believed he embarked on a cross country trip.

3. In April 2007, another hitchhiker was found dead on a side road off Highway 191 in Sublette County, north of Rock Springs. Investigators there say 54-year-old Richard Nystrom, a transient from California, was killed by "blunt-force trauma" to the head. Nystrom was found with cash in his pockets.

(U//~~FOUO~~) Alaska Serial Killer Israel Keyes Admission to Assaulting Young Female in Central Oregon

SOURCE: (U//~~FOUO~~) An FBI agent.

(U//~~FOUO~~) FBI Comment: Due to the subject's travel, residence in multiple states, and propensity for criminal activity, including kidnapping and murder, the FBI is attempting to identify additional crimes committed by Israel Keyes.

(U) On 13 March 2012, Keyes was arrested in Lufkin, Texas, for the kidnapping and murder of Samantha Koenig. The victim's remains were recovered in Matanuska Lake, Alaska. Subsequent to

his arrest and extradition to Alaska, Keyes cooperated with law enforcement and provided additional information concerning crimes in multiple states, including kidnapping and murder. On 2 December 2012, Keyes was found deceased in his Anchorage, Alaska, jail cell due to an apparent suicide. The FBI Anchorage Division is currently attempting to identify additional victims and requesting local law enforcement assistance.

(U//LES) Keyes disclosed his first violent sexual assault occurred in 1996 or 1997 when he sexually assaulted a female between 14 and 18 years-old. Keyes reportedly was fixing his parent's home near the Deschutes River in Wasco County at 611 Bluff Street, Maupin, Oregon 97037. Keyes admitted he identified a remote rest area on the Deschutes River in Maupin containing a permanent outhouse structure often utilized by people tubing on the river. According to Keyes, a small group of young females stopped at the rest area at the end of the day. As the group departed and continued down the river, one female fell behind and attempted to get on her tube. As the group rounded the river bend, Keyes grabbed the female and sexually assaulted her for approximately one hour in the outhouse. After the assault, Keyes put the victim on her tube and sent her down the river. The FBI is unaware if the alleged sexual assault was reported to law enforcement.

(U//~~FOUO~~)

(U//FOUO) Location of Subject's Residence in 1996 or 1997

(U//~~FOUO~~) The FBI investigation indicated Keyes traveled to Oregon on numerous occasions as noted below; however, the FBI is unable to confirm the specific locations in Oregon pertaining to these dates:

4/24/2007 - 5/4/2007
8/26/2007 - 9/6/2007

The information received in this communication was received from the MC3 ISRAEL KEYES activation. Dennison, Texas 75020, telephone reported that in an encounter with KEYES on 9/13/2010 he gave her a spoon that he had carved while hiking the Appalachian Trail with his girlfriend during the summer of 2010. described the spoon as not looking normal and the bowl portion being lopsided. states that KEYES told her he had intentionally carved them to look different so the people he gave them to would know "that they don't have to be perfect to function." KEYES told that he had recently (prior to 9/13/10) broken up with that girlfriend because he was feeling pulled in too many directions.

SERIAL KILLINGS - VIOLENT CRIMINAL THREAT

Date specimens received: November 30, 2012

The specimen listed below was examined in the Nuclear DNA Unit:ITEM RESUBMITTED FROM FBI LABORATORY NUMBER 120822003 PF ABE

K3 Head hair sample from ISRAEL KEYES (1B260, E5123826)

This report contains the results of the nuclear DNA analyses.

Results of Nuclear DNA Examinations:

Specimen K3 (KEYES) was subjected to deoxyribonucleic acid (DNA) typing by the polymerase chain reaction (PCR). The AmpFSTR® Identifiler® Plus PCR Amplification Kit was used for this analysis.¹ In addition, specimen K3 (KEYES) was subjected to DNA typing by the PCR using the AmpFSTR® Yfiler™ PCR Amplification Kit.²

Based on the typing results from the amelogenin locus, male DNA is present in the DNA obtained from specimen K3 (KEYES).

UNCLASSIFIED

The STR and Y-STR typing results from specimen K3 (KEYES) were compared to the STR and Y-STR typing results from specimen Q263-1 [submitted under FBI Laboratory Number 121016011 PF ACJ and reported in the FBI Laboratory report dated November 16, 2012].

The STR typing results from specimen Q263-1 indicate the presence of DNA from two or more individuals. The STR typing results for the minor contributor to specimen Q263-1 are not suitable for matching purposes; however, they may be utilized for exclusionary purposes.³ No comparison information for specimen K3 (KEYES) can be provided with regard to the minor contributor to specimen Q263-1.

The Y-STR typing results obtained from specimen Q263-1 and specimen K3 (KEYES) are the same. Therefore, specimen K3 (KEYES) cannot be excluded⁴ as a potential male contributor to the DNA obtained from specimen Q263-1. Searching the US Y-STR Database (release 3.0), the Y-STR profile obtained from specimen Q263-1 has been observed in 0 of 3492 African American individuals, 0 of 5712 Caucasian individuals, and 0 of 2609 Hispanic individuals. Applying the 95% confidence interval to these observed frequencies, the Y-STR profile obtained from specimen Q263-1 would be expected to occur in:

- 1 in 1167 African Americans

- 1 in 1908 Caucasians

- 1 in 872 Hispanics

These adjusted frequencies provide an estimate of the maximum proportion of individuals in each population group that are expected to have the profile observed in specimen Q263-1.

The DNA typing results obtained from the tested specimen are not eligible for entry into the Combined DNA Index System (CODIS). These results will be maintained by the FBI Laboratory for possible future comparisons.

No other nuclear DNA examinations were conducted.

Methods/Limitations:

The following methods and limitations apply to the results/conclusions provided in the results section(s) of this report and are referenced by number in the body of the text for clarity.

¹ The AmpF~~STR~~® Identifiler® Plus PCR Amplification Kit includes the amelogenin locus and the autosomal STR loci (from non-sex chromosomes) D8S1179, D21S11, D7S820, CSF1PO, D3S1358, TH01, D13S317, D16S539, D2S1338, D19S433, vWA, TPOX, D18S51, D5S818, and FGA. The amelogenin locus is used for sex determination. Insufficient DNA quality and/or quantity can affect the ability to generate a DNA typing result and is not an absolute determination that an individual did not come into contact with an item of evidence.

² The AmpF~~STR~~® Yfiler™ PCR Amplification Kit includes the STR loci DYS456, DYS389I, DYS390, DYS389II, DYS458, DYS19, DYS385a/b, DYS393, DYS391, DYS439, DYS635, DYS392, Y_GATA_H4, DYS437, DYS438 and DYS448. These STR loci are located on the male Y-chromosome and are transmitted through a paternal lineage from father to son. Barring mutation (a rare event which may occur in a sperm cell prior to transmission of the Y-chromosome to a biological son), all males in the same paternal lineage have the same Y-STR typing results.

³ As used here, STR typing results are deemed not suitable for matching purposes (i.e., inconclusive) when the potential exists that not all of the genetic information in a biological sample has been detected. For STR typing results to be used for matching purposes, sufficient DNA quality and/or quantity is necessary.

⁴ It is noted that barring mutation, any male relative within the same paternal lineage has the same Y-STR profile and would therefore also be expected to be included. A paternal lineage consists of those male relatives to whom the same Y-chromosome has been transmitted from a common ancestor.

The supporting records for the opinions and interpretations expressed in this report are retained in the FBI files. The submitted items will be returned to you under separate cover. Pre-Assessment Findings:

On 1-2-2013 Task Force Officer (TFO) [REDACTED] contacted [REDACTED] remembers that Israel KEYES visited his mother twice while she lived in Harlan, Indiana. [REDACTED] remembers because she would fill in for KEYES' mother, [REDACTED] as a in-home healthcare provider when KEYES visited. [REDACTED] recalled that one visit was in June of 2011 and the other was a year or two prior to that, she said that KEYES only stayed a few days each visit. [REDACTED] is going to try and research when the first visit was and get back to TFO [REDACTED] with that information.

[] stated she thought the men in the truck intended to rape her. She described the men as follows: The driver appeared to be the shorter of the two men, he had a pale skin tone with facial hair, possibly Mexican, with short, dark hair on the thinner side, his face was round, but not fat. [] stated they looked like migrant workers which were in the area. The second person, a passenger was taller, Caucasian with Tarzan like hair, shoulder length, dull, and light brown and was clean shaven. He was wearing a tawny colored coat. Caller stated the passenger looked like Israel Keys. The truck they were in was two-toned and the ugliest color she had ever seen. She said the white was the color of toothpaste with a slight bluish tint, flat in color.

[] said she told herself it was nothing and went to lunch and to work after this incident. Her voice quivered while speaking of this and it was apparent she was still shaken up just remembering that day.

Keyes [REDACTED] while she worked, and [REDACTED] could only recall Keyes leaving the hotel briefly during that trip to go to Seven Eleven to get something.

During another weekend trip, they stayed at the Seven Cedars Casino in Blyn, Washington.

[REDACTED] recalled that Keyes had a green colored filing cabinet in their garage, which he kept locked. Keyes told Hawkins that he had "personal stuff" in the cabinet.

[REDACTED] stated that she repeatedly caught him communicating with other women while playing spades online and while on the website "Blacktopaz." [REDACTED] also caught Keyes in the bathroom once with a "big boobs" magazine and on another occasion, caught him watching a "Bi-curious" pornographic video.

[REDACTED] recalled that in December 2000 or early 2001, her neighbor's husband went missing while on a hike. He was later found and it was ruled an accidental death. [REDACTED] stated that she did not see Keyes that day or night which she now thinks was unusual. [REDACTED] later identified the missing man's wife as [REDACTED] was a white female who was [REDACTED] years old.

[REDACTED] also recalled that in December 2000, Keyes traveled back to Colville to see a girlfriend. The girlfriend was the daughter of a cabinet maker who was going to hire Keyes.

In December 2001, Keaton traveled with Keyes back to Colville, Washington. [REDACTED] did not have any further information but has since been suspicious of this trip.

[REDACTED] was asked about any particular knives that Keyes owned or carried. [REDACTED] stated that Keyes always carried a Leatherman.

and the purpose for the interview, [REDACTED] provided the following
information:

[redacted] who was known by friends as [redacted] was stationed in the U.S. Army, at Fort Lewis, Washington, from 1999 - 2002. In 2002 [redacted] took a recruiting position in Moses Lake, Washington and lived there until 2005. In 2005 [redacted] moved down to Texas where he has since retired from the U.S. Army.

[redacted] was married to [redacted] (hereinafter [redacted]
[redacted] and they had a son together, Keaton Hawkins.

[redacted] stated of all the men that [redacted] had dated following their divorce, he most liked Israel Keyes. [redacted] felt that Keyes was a "straight shooter" and he never had any concerns about him. [redacted] stated that he grew up on "the streets" and always felt that he had a "sixth sense" about people. [redacted] stated that Keyes had never triggered any concerns with him. [redacted] stated that he was "shocked" when he learned of all the things that Keyes had allegedly done.

[redacted] was asked about the time frame involving the first two weeks of April, 2005. [redacted] recalled that his son Keaton was living with him at the time they were going to moving down to Texas. Keaton was on Spring Break from school that first week of April and wanted to spend time with his friends and family in [redacted] before they moved away. So Keyes agreed to pick up Keaton from Moses Lake, Washington and take him back to [redacted] with him. [redacted] could not recall if Keyes had picked up Keaton on that Friday, Saturday, or Sunday (April 1-3, 2005). When SA [redacted] mentioned that Keyes appeared to have been in Hunters, Washington on Saturday (April 2, 2005), [redacted] stated that he recalled that Keyes had told him that he had family in Hunters, Washington and in Colville, Washington. [redacted] assumed that Keyes was visiting family or friends in Hunters, Washington.

[REDACTED] was asked about his [REDACTED] telephone number. [REDACTED] stated that this was his recruiting telephone number.

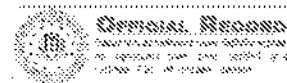

[REDACTED] recalled that around this same time, he sold Keyes his boat. [REDACTED] could not recall for sure if Keyes had picked up the boat from Moses Lake, Washington or if he had taken the boat over to Keyes. [REDACTED] also believed that Keyes had driven Keaton back home after his trip to Neah Bay, but admitted that he wasn't sure about that either. [REDACTED] stated that Keaton has a very sharp memory and recommended that investigators ask Keaton what he recalls about the trip.

[REDACTED] recalled that the boat was in bad shape when he sold it to Keyes. [REDACTED] stated that he thought the motor ran, but advised that the boat was in need of much repair. [REDACTED] never saw the boat after Keyes had re-modeled it.

[REDACTED] stated that the last time that he saw KEYES was when he sold him the boat. Keyes never visited [REDACTED] when he was living in Texas and never communicated with him by e-mail or phone. [REDACTED] commented that it was not until after Keyes was arrested for the killing of the Alaskan barista that he found out [REDACTED]

Details:

On January 23, 2013, Salina Police Department contacted Anchorage Police Department by e-mail regarding the whereabouts of Israel Keyes on January 21, 2008. This e-mail was then forwarded to the Anchorage Division. Salina Police Department has an unsolved case for the homicide of Beverly Logan that occurred on the aforementioned date.

SOS reviewed the financial and travel records for Israel Keyes and was able to place him in Anchorage, Alaska on January 21, 2008 and also on surrounding dates. Keyes later flew out of Anchorage, Alaska to Mobile, Alabama on January 28, 2008.

On Tuesday, January 22, 2013, [REDACTED]

[REDACTED] date of birth [REDACTED], telephone number

[REDACTED] was telephonically interviewed. After being advised of the identity of the interviewing Agent and the purpose for the interview, [REDACTED] provided the following information:

[REDACTED] lives in Clallam Bay, Washington and works in Forks, Washington for the Washington State Department of Natural Resources (DNR). A few months ago, [REDACTED] recalled hearing a co-worker discuss the story of Israel Keyes. At the time, [REDACTED] did not realize that this was the same person who she had a brief interaction with some years back.

[REDACTED] was asked about a two minute (2:00) long telephone call that took place on February 26, 2005 at 4:11 PM, between telephone number 360-640-2189 [a cell phone number associated with Israel Keyes] and [REDACTED] stated that telephone number [REDACTED] was her cell phone number at the time. [REDACTED] recalled that on that particular date, she met Keyes for a cup of coffee at the Hurricane Coffee Company in Sequim, Washington. [REDACTED] met Keyes on the dating website Match.com and this was their first and only in-person contact. [REDACTED] stated that she did not recall much about Keyes other than his nickname "Izzy" and what he was wearing. [REDACTED] could not recall what he did for a living, if he had any kids, or any other facts about Keyes. [REDACTED] stated that she was not attracted to Keyes and was turned off by him. [REDACTED] was asked if she recalled whether or not Keyes had any facial hair at the time. [REDACTED] recalled that Keyes had a mustache and stated that she does not like mustaches on men and that was one of the things that immediately turned her off. The Agent asked [REDACTED] if she recognized Keyes from any of the media images that are available online. [REDACTED] stated that she did see one image of Keyes that reminded her of his appearance during her brief contact with him.

[REDACTED] stated that after the Agent's initial telephone call on Friday, January 18th, 2013, she went on to Match.com's website to see if she could retrieve any old messages between herself and Keyes. [REDACTED] stated that because it had been so many years since she was last on the website, she would have to renew her membership in order to access any old

FBI Requests The Public's Assistance

Diego Rodriguez, Special Agent in Charge for the Dallas Division of the Federal Bureau of Investigation (FBI) requests the public's assistance in developing information concerning the travels and activities of a **deceased** serial killer identified as ISRAEL KEYES.

Source: KTRE, Lufkin

Based upon investigation conducted following his arrest in Texas during March 2012, Israel Keyes is believed to have committed multiple kidnappings and murders across the United States between 2001 and March of 2012. Keyes is suspected to have specifically traveled through various cities in the Dallas/Fort Worth Metroplex, and the Glenrose, TX areas during February 2012. In December of 2012, Keyes committed suicide while in custody after being returned to Anchorage, Alaska. The FBI is now attempting to identify the extent of Keyes' travels and activities and is seeking the public's assistance specifically as it pertains to the following locations during the time period of February 12 through February 16, 2012:

Dallas/Fort Worth Metroplex

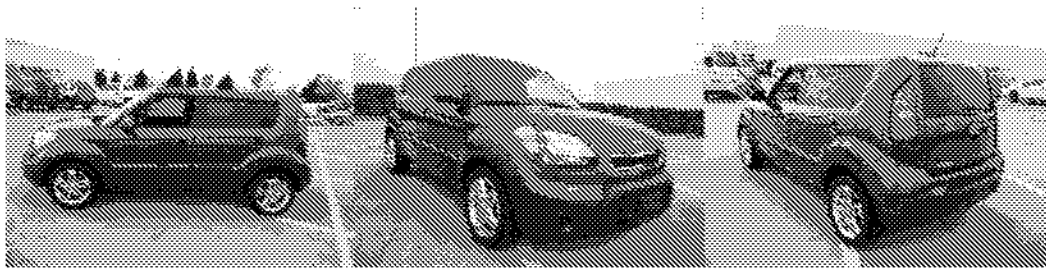

Prior to his suicide, while in custody, Keyes admitted traveling through the cities of Azle, Aledo and Cleburne, TX during February of 2012. Investigators suspect Keyes' rental vehicle became stuck in a muddy, rural area, possibly near Cleburne, Texas between February 12 and 16, 2012.

Investigators are seeking the identification of any person from whom KEYES may have obtained assistance or anyone having contact with KEYES or his vehicle during that time.

Glen Rose, Texas area:

Keyes is also suspected of visiting the Post Oak Cemetery in the Glen Rose, TX area between February 12 and 16, 2012. **Investigators are seeking the identification of any person having contact with Keyes or his vehicle during that time frame.**

summary, the information pertains to a possible sighting of Keyes and another unidentified male who were running from a cemetery carrying a shovel and rake. In her e-mail, [] mentions she called FBI Albany to report the information but writer was unable to locate any record of her contact with FBI in Sentinel records. Writer reviewed the Keyes timeline for October 2010 and noted that Keyes was in Maine from 10/16/2010 to 10/24/2010, and in Massachusetts on 10/25/2010. For all other dates in October 2010, Keyes was in Alaska, with the exception of days prior to, and just after, his trip to the East Coast, when Keyes was in Seattle, Washington. Unfortunately, without a specific date for the possible sighting in Vermont, it is unknown if this sighting could actually be Keyes or not.

I just spoke to Det. [] by phone and he suggested I email you. I just want to make sure the info I have, assuming it's pertinent, doesn't slip through the cracks. The particulars of Keyes frequenting isolated dog parks and cemeteries for victims and burying kill kits near the Winooski River made me remember a bizarre encounter in 2010, that everyone else chalked up to marijuana harvesting, but I always believed it was something much more serious.

I don't want to be a pest and I'm not looking for publicity. In all likelihood, you already have this info, but I'll feel better if I KNOW you do.

Re: 306-AN-15642, 02/05/2013

After reading about the Keyes case in national news sites last Sunday, I called the FBI Albany office with this info, and then as I thought some more, emailed [redacted] whom I have dealt with before.

b6
b7c

I am reproducing here the email I sent to [redacted] Monday night. I wish I could recover my original email to him, but my system keeps email for only 24 months. I have some additional thoughts to add which I will do at the end of this segment, not the least of which is that, if this was a bona fide sighting of Keyes, then who was the other runner and where is he now?

Chief,

You may remember I wrote you in early October 2010, reporting a most unusual encounter in the woods off what was then the Patchen Road dog park. I was surprised by two men--the physicality of one consistent with the photos in the paper of Israel Keyes--who were running cross-country from the direction of the Greenmount cemetery through Centennial Woods. One was carrying a shovel and the other a rake.

Although I can't retrieve my original email, I seem to recall conveying to you the impression I had then that there was a bank bag or a body buried out there somewhere. At the time you thought what I had seen probably had more to do with marijuana harvest season, although I've never seen anyone in Vermont get that worked up about marijuana. I wonder now if, perhaps, given the time of year, they were simply digging a hole before the ground froze, and perhaps they returned at a later date to bury something. The paper says the Curriers' bodies have not yet been found. I've read that Keyes

would often bury his kill kits near a cemetery. It would certainly throw off a scent dog searching for human remains.

I don't know if it's worth pursuing, but there's an ex-SBPD officer who could narrow down the area

somewhat, I think. I ran into a man in the same area, one week after the sighting I reported to you. He said

his name was [redacted] and he had worked for SBPD. He was in his [redacted] and was walking his [redacted] I

told him I was in a forensic psychology masters program.

[redacted] might remember my telling him about the runners and the exact location where we met, the "dog-leg"

in the path that returns walkers to the parking lot. He might also know the identity of a dog-walker who was

It's hard to recall everything more than two years later, but I haven't forgotten the expression on those runners' faces. I interpreted their behavior as a major, fearful, consciousness of guilt about something for which they didn't want to get caught. I can't shake the feeling that they knew they had done something horribly wrong and were putting as much distance between them and what they had done as they possibly could.

So for what it's worth, I'm calling your attention to my original email, probably sent between October 3 and October 17, 2010, from this email address. I hope I'm wrong, but if I'm right, please keep my name confidential.

groomed trails that any previous visitor to the area would have known led directly and comfortably to the parking lot. These two were not out for a fun-run; they appeared to be grim and determined, not full of fear or terrified, but intensely serious about putting some distance between them and wherever they were coming from. It appeared to me they didn't want to get caught.

Based on their trajectory when I saw them, they were coming from the vicinity of the Greenmount Cemetery. As I recall, it was a cold, crisp, overcast day when normal people were home staying warm, and there was only one other car in the parking lot when I arrived, an old white foreign-made sedan--probably the Toyota referred to by the other dog-walker. The dog-walker didn't say which direction the Toyota left in, but from what I recall about the way he was standing and pointing, he indicated down Grove Street to Winooski as opposed to up Patchen Road to South Burlington. I can't say for sure that there were VT plates on the vehicle, but typically if I noticed a car from another state, I would make a mental note, and I would have added that in the first email to I walked those woods once or twice a day for nearly 3 years and could do it in a blinding snowstorm--and often did. I can mark the area on a google map, if that would help you.

b6
b7c

When I first entered the woods, I noticed that someone had been digging divots and small holes all along the trail. They were reasonably fresh, no one had walked over them; at the time, I figured it was a child playing with a shovel. It's highly likely that I was alone in the woods with those two runners for 20 minutes or so.

My impression now is that it was Army issue, but it would be best to find that other dog walker and see if he remembers anything. Lieutenant [REDACTED]

I just spoke to Det. [REDACTED] by phone and he suggested I email you. I just want to make sure the info I have, assuming it's pertinent, doesn't slip through the cracks. The particulars of Keyes frequenting isolated dog parks and cemeteries for victims and burying kill kits near the Winooski River made me remember a bizarre encounter in 2010, that everyone else chalked up to marijuana harvesting, but I always believed it was something much more serious.

I don't want to be a pest and I'm not looking for publicity. In all likelihood, you already have this info, but I'll feel better if I KNOW you do.

After reading about the Keyes case in national news sites last Sunday, I called the FBI Albany office with this info, and then as I thought some more, emailed [REDACTED] whom I have dealt with before.

I am reproducing here the email I sent to [REDACTED] Monday night. I wish I could recover my original email to him, but my system keeps email for only 24 months. I have some additional thoughts to add which I will do at the end of this segment, not the least of which is that, if this was a bona fide sighting of Keyes, then who was the other runner and where is he now?

Chief,

You may remember I wrote you in early October 2010, reporting a most unusual encounter in the woods off what was then the Patchen Road dog park. I was surprised by two men--the physicality of one consistent with the photos in the paper of Israel Keyes--who were running cross-country from the direction of the Greenmount cemetery through Centennial Woods. One was carrying a shovel and the other a rake.

Although I can't retrieve my original email, I seem to recall conveying to you the impression I had then that there was a bank bag or a body buried out there somewhere. At the time you thought what I had seen probably had more to do with marijuana harvest season, although I've never seen anyone in Vermont get that worked up about marijuana. I wonder now if, perhaps, given the time of year, they were simply digging a hole before the ground froze, and perhaps they returned at a later date to bury something. The paper says the Curriers' bodies have not yet been found. I've read that Keyes would often bury his kill kits near a cemetery. It would certainly throw off a scent dog searching for human remains.

I don't know if it's worth pursuing, but there's an ex-SBPD officer who could narrow down the area somewhat, I think. I ran into a man in the same area, one week after the sighting I reported to you. He said his name was [REDACTED] and he had worked for SBPD. He was in his [REDACTED] and was walking his [REDACTED] I asked him where he was coming from and he explained that there was a homeless probationer in the woods who he visited. We talked for the next 15 minutes about law enforcement in Vermont, so I gathered he was a probation officer. He may remember me; I had a border collie and little white long-haired jack russell, and

b6

told him I was in a forensic psychology masters program.

Yahoo! Email Snapshot Help

Snapshot Format

The email snapshots that Yahoo provides in response to valid legal process are in mbox format. This is the format in which the mailbox is stored on the server. The messages in the mailbox are placed into a single text file (mbox format). The snapshot may have been supplied to you on a CD or DVD.

Depending on the abilities of your computer, it may be easier to open and manipulate the snapshot file if you copy the file to your computer's hard drive. Generally, access to the hard drive is much quicker than accessing files on a CD or DVD drive.

The information that follows below will provide you with suggestions on how to work with the snapshot so you can more easily review its contents in a user-friendly format. When you take any of these steps, however, you will be viewing the evidence in a form different from the form in which it was provided by Yahoo! Yahoo! record custodians therefore will only be able to authenticate as business records the snapshot as originally provided to you. Printouts that you create using any of the methods described below are not considered business records of Yahoo! Accordingly, authentication of printouts made by any of these methods will be the responsibility of the law enforcement agent or other witness who created the printouts.

Furthermore, this document is not intended to provide advice on proper evidence-handling procedures or other forensic issues.

Text Editors

A text editor will open the mbox file and allow you to view the plain text. Some text editors that may be useful are TextPad (<http://www.textpad.com>) and WordPad (available with Windows). TextPad seems to work very well for large snapshots that WordPad might not handle as gracefully.

Please note that Microsoft Word will not handle the text file of the mailbox contents properly. In addition, you may find that Notepad (offered with Windows) does not include any formatting, so the messages may be difficult to read.

You may see a long string of what looks like gibberish characters that span hundreds of lines in the email message. These are usually attachments to a message such as a picture or other document that is not viewable in plain text. Once you get past the attachment, you will see the rest of the messages in the snapshot file.

For rendering the html in a message and converting mail attachments back to a viewable form, the Thunderbird mail client offered by Mozilla (<http://www.mozilla.com/thunderbird/>) works well. See instructions below.

Installing Thunderbird and Setting up Thunderbird Account

Thunderbird is a free mail client that will allow you to view the messages as emails. It works well for rendering the html in a message and converting mail attachments back to file form.

1. Download the client here: <http://www.mozilla.com/thunderbird/>.
2. Install the program on your computer by following the instructions included with the download.
3. Launch Thunderbird from the Start Menu or double click on the shortcut on your desktop.
4. You may need to set up your Thunderbird account. You will need to enter information such as your email address, POP server data, etc. You do need to enter some characters into those fields, but it does not have to be accurate information, since you will not be using Thunderbird for your own email needs.
5. The default settings of Thunderbird will check for email on the server that you specified. This will occur each time you open the program and every additional 10 minutes that the program is running. If you provided incomplete or inaccurate server information, then you'll receive error messages. These can be irritating, so to avoid this, change your server settings:
 - a. In the "Folder" list on the left-hand side, select your account name.
 - b. Under the "Accounts" section, choose "View settings for this account."
 - c. Select "Server Settings" from the left-hand column of choices.

- d. Uncheck all of the boxes and click the "ok" button.
6. You should now have an account on Thunderbird and be ready to import a .txt file into it. Each snapshot will end up in its own folder. The messages are NOT sorted into "Trash" and "Sent" and "Inbox" folders, nor into any of the user-designated folders. All messages from the snapshot will end up in one large folder.

Importing a Mail Snapshot into Thunderbird

Once you have installed Thunderbird and setup an account, you can import a mail snapshot into the program.

1. Launch Thunderbird from the Start Menu or double click on the shortcut on your desktop.
2. In the left-hand side, under the "Folders" section, click on "Local Folders."
3. Go to the "Edit" menu and select "Properties". This will take you to the account settings screen.
4. On the Account Settings Window, "Local Folders" should already be highlighted. Note down the "Local directory" location on the right hand side. Note: you'll need to scroll through it in order to see all of it.
5. Now that you have the "Local directory" location, close Thunderbird.
6. Copy the .txt snapshot into the "Local directory" location you obtained previously. In this example case, copy (drag and drop) the .txt file into the "Local Folders" folder. The "Local Folders" folder will already be populated with some default folders and files. Do not attempt to delete or change these. *(PLEASE NOTE: If the file name does not contain "full" then it will not contain all the messages from the snapshot. Copy it into a "full" directory).*
7. Once the .txt file has been saved into the "Local Folders" folder, launch Thunderbird again. All the messages will appear under a folder in the same name as the filename copied.

You'll notice that all messages appear to be "unread" until you click on them. You can easily see which messages have attachments. Those attachments should be displayed in their original format.

Who sent the mail?

U.S. law strictly limits the information that online service providers like Yahoo! may disclose about their users. However, the email message itself does contain some information relating to the sender's identity. In the headers of email messages sent via Yahoo! Mail, an Internet Protocol (IP) address that corresponds to the sender's Internet service provider (ISP) is included.

Typically, the IP address of the user is placed in square brackets such as "[ip address]" by the Yahoo server in a "Received: from" line in the headers. For email messages sent from the Yahoo web mail client, the X-Originating-IP field in the expanded headers does not contain the user's IP address. The X-Originating-IP address is the address of the Yahoo server that is used to send the message and does not identify an individual user.

Provided that you have opted to display "full headers" in your email application, you should find several lines in the email message that contains an 8 to 12 digit number, separated by periods. They should look something like this:

Received: from [123.456.78.91] by . . .

The IP Address in the line described above that is generally closest to the bottom of the message will contain the unique IP address of the sender's ISP. Once you have identified the IP address, you can run a "whois" search to determine which ISP provides this person with Internet access.

There are several utilities available on the web to run a whois search. Here's one web site that can help you to determine which service provider is responsible for the IP address:

Also present during the entire interview was [redacted] and on occasion her daughters, [redacted] and an individual named [redacted] (Last Name Unknown - LNU). [redacted] had reviewed the timeline included in an FBI Press Release and provided the following information regarding ISRAEL KEYES' (KEYES) travels:

KEYES' former girlfriend, [redacted] had recently commented to another KEYES family member that she had reviewed the timeline submitted with an FBI Press Release, and she knew she and KEYES were together during many of the times reflected in the timeline. [redacted] noted [redacted] worked in the lower 48 states for three to six weeks at a time and commuted back and forth to Alaska while [redacted] and KEYES dated. There were occasions during the six-week-long periods [redacted] worked in the lower 48 states that [redacted] paid for KEYES to fly from Alaska to visit her.

Regarding the FBI seeking information relating to an unknown KEYES victim who was assaulted in Oregon between 1996 and 1998, [redacted] stated she and her husband sold their Washington house in the early-spring of 2007, and the family moved from Washington to Maupin, Oregon. [redacted] and her husband, [redacted] bought a small house in need of repair on a piece of property at the corner of the [redacted]. The house sat on a hill overlooking a valley in which was located the [redacted] and her family purchased the property as an investment, and their plan was to renovate and sell the property in the fall of 1997 and move to New York. The family built a fence around the property and lived in tents while renovations took place. KEYES moved to Oregon with the family in the Spring of 1997, and KEYES and a friend, [redacted] (who later changed his name to [redacted]) performed the house renovations.

During 1997, the KEYES family, including ISRAEL KEYES, frequently went to the Deschutes River to swim. They found a secluded area along the riverbank where they most often congregated. [redacted] noted the area of the river which they frequented was not recreationally developed, and she recalled no bathroom facilities of any kind nearby. From their vantage

point, however, they could see the area where rafters and tubers put into the water, and during the summer months many rafters and tubers floated by the area where the KEYES family swam. There were also many fishermen along the river.

In the late-summer of 1997 (possibly August), the entire KEYES family, with the exception of ISRAEL KEYES, went to California for three weeks to visit their grandmother. KEYES stayed behind to finish working on the house. [REDACTED] suspected it may have been during the three-week period of time that KEYES was alone in Maupin that he assaulted the girl on the river.

[REDACTED] provided photographs of the small house they purchased in Maupin, Oregon, the finished renovations of the house, and the view of the Deschutes River from the house balcony. Copies of the photographs are maintained in the 1A section of this file.

In or around September, 1997, the KEYESes put the Maupin house on the market for sale, and the entire family, including ISRAEL KEYES, left Oregon and drove to New York where [REDACTED] purchased property in Constable, New York. The property had a small house which was occupied by the owners, but the owners allowed the KEYESes to camp on the property until the owners moved out of the house. [REDACTED] settled the family in, and he and ISRAEL KEYES then drove back to Maupin, Oregon, to retrieve all their belongings. KEYES lived with the family on the New York property until he enlisted in the military. In the fall of 1998, after KEYES enlisted in the military, the KEYES family moved from New York to Maine where they purchased property in the spring or summer of 1999.

[REDACTED] noted that even though they owned the Oregon property until late-1998, as far as she knew KEYES did not return to the Oregon property other than with his father to retrieve their belongings. She noted, however, it was possible he returned to the Oregon property without her knowledge while on furlough from the military. After KEYES enlisted in the military, he had a girlfriend who lived in Colville, Washington, and most of his time off he spent in Colville with her. [REDACTED] could not recall the exact dates of KEYES' time in the military nor his discharge from the military. While in the military and on one or two furloughs, KEYES visited [REDACTED] and the family in Maine, but [REDACTED] could not recall the dates of those visits. On one of the furloughs, KEYES possibly traveled to California to see his grandmother. [REDACTED] recalled that when ISRAEL KEYES returned from Egypt, he spent the next six to eight months with her and the rest of the family in Maine. During those months, she and KEYES had the best communication and closest relationship they had ever experienced before or since.

When KEYES was approximately 11 or 12 years old, he brought home several guns which he told [REDACTED] he found in a barrel in a shed. The guns were in poor condition, and KEYES cleaned them up and took them to a gun dealer for an opinion of their worth. KEYES eventually sold the guns to an unknown person. [REDACTED] provided a photograph of the guns KEYES found and sold, and a copy of the photograph is maintained in the 1A section of this file.

The FBI's timeline included an entry from 4/1/2009 - 4/14/2009. [REDACTED] and her family lived in Indiana at that time. [REDACTED] recalled a conversation she had with KEYES sometime in 2010 during which KEYES told her he had visited their New York property in the spring of 2009. [REDACTED] noted there was nothing to be done on the property, and the house on the property was beyond repair. KEYES said he went to the property by himself, and [REDACTED] questioned KEYES about why he did not visit his brothers while he was so close and why he went to the property in the first place. KEYES had no plausible explanation for why he went to New York nor why he did not visit his brothers. [REDACTED] believes KEYES' solitary visit to New York was during the 4/1/2009 - 4/14/2009 time period.

Regarding the murders of William and Lorraine Currier, [REDACTED] recalled KEYES visited her in Indiana between June 3-5, 2011. When KEYES left Indiana, he told Mrs. KEYES he was going to the New York property to plant trees. KEYES had no camping equipment, so she purchased it for him. When he returned to Indiana, he told [REDACTED] the New York property was very overgrown, so he only planted six trees. He also told her he visited Vermont during that trip. It was after he returned to Indiana from that trip that he took a long walk in the woods with his sister, [REDACTED] and [REDACTED] reported KEYES was visibly upset and "very broken" during their conversation.

[REDACTED] recalled discussions with KEYES regarding his travels in the Eastern United States during unknown/unrecalled time periods. KEYES talked about camping in the Adirondack Mountains and was amazed at the number of abandoned hotels and buildings along the route he drove. When [REDACTED] traveled to Maine during the summer of 2011, they drove from Maine to Saranac Lake and Constable, New York, driving along Route 3. Along that route they saw many abandoned buildings, much like those described by KEYES, and [REDACTED] surmised at that time that they were driving the same route KEYES had previously described to her.

On Thursday, January 10, 2013, [redacted] date of birth [redacted] [redacted] Langley, WA, cellular telephone number [redacted] [redacted] was telephonically contacted. After being advised of the identity of the interviewing Agent and the nature of the interview, [redacted] provided the following information:

[redacted] met ISRAEL KEYES, hereinafter referred to as KEYES, on match.com and they dated for a period of about 2 months. They started by going out on a couple of dates, then afterwards KEYES came to her house in Sequim, WA and would bring [redacted]. They often came over on a Friday night after [redacted] got off work, then stayed overnight and through part of the next day. [redacted]

[redacted] reported that their relationship did not last long because KEYES was not ready to be in a serious relationship. He contacted [redacted] at a later date and hoped to resume their relationship, but at the time, [redacted] had another boyfriend. [redacted] emailed KEYES a few times after he moved to Alaska, and at one point he told her he was in a serious relationship with a woman there.

[redacted] reported that the phone number KEYES called her on on March 4, 2005, [redacted] was her land line phone at [redacted] Sequim, WA. She had an AT&T cell phone at the time as well and would check to see if she could identify the number.

KEYES told [redacted] that he lived in Forks, WA. She never went to his home or knew what he did for a living.

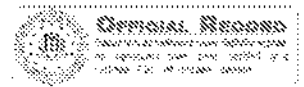

[redacted] had not seen any of the media reports related to KEYES' criminal activity, nor did she know he committed suicide in prison. She was shocked and distraught to learn the news of both.

Attempts to conduct follow up phone interviews with [redacted] were met with negative results.

Dear Sir or Madam:

Pursuant to Title 18, United States Code Section 2703(f), this letter is a formal request for the preservation of all stored communications, records, and other evidence in your possession regarding the following email address pending further legal process: [REDACTED] for the date range of January 1, 2005 to present.

I request that you not disclose the existence of this request to the subscriber or any other person, other than as necessary to comply with this request. If compliance with this request might result in a permanent or temporary termination of service to the account, or otherwise alert any user of the account as to your actions to preserve the information described below, please contact me as soon as possible and before taking action.

I request that you preserve, for a period of 90 days, the information described below currently in your possession in a form that includes the complete record. This request applies only retrospectively. It does not in any way obligate you to capture and preserve new information that arises after the date of this request. This request applies to the following items, whether in electronic or other form, including information stored on backup media, if available:

1. The contents of any communication or file sorted by or for the above noted account and any associated accounts, and any information associated with those communications or files, such as the destination email addresses or IP addresses.
2. All records and other information relating to the account and any associated accounts including the following:
 - a. subscriber names, user names, screen names, or other identities;
 - b. mailing addresses, residential addresses, business addresses, email addresses, and other contact information;
 - c. length of service (including start date) and types of service utilized;
 - d. records of user activity for any connections made to or from the account, including the date, time, length, and method of connections, data transfer volume, user name, and source of destination Internet Protocol address(es);
 - e. telephone records, including local and long distance telephone connection records, caller identification records, cellular site and sector information, GPS data, and cellular network identifying information (such as the IMSI, MSISDN, IMEI, MEID, or ESN);
 - f. telephone or instrument number or other subscriber number or identity, including temporarily assigned network address;
 - g. any other records or evidence relating to the account.

If you have data responsive to this request or if you have questions regarding this request, please contact SA [redacted] at [redacted] or [redacted]

Subject: Israel Keyes

Greetings:

Just writing at this time to enquire if the FBI knows the whereabouts of Israel Keyes on Feb 08, 2004, re: relationship to [redacted] disappearance. I see the FBI have issued a statement regarding [redacted] from Vermont, saying that Keyes was elsewhere at the time of her disappearance.

I'm a clairvoyant who uses this gift or curse to look for missing and murdered persons. I have been putting together a lists of possible victims of Keyes, however the itinerary is rather non-specific, I wrote to the head quarters in Washington requesting further indepth info regarding his itinerary, but received no reply. Not that I really expected one.

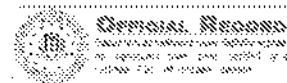

Here is the reason, a Red Truck was spotted on the same road [redacted] disappeared from, at the time [redacted] went missing, the person stated that the behaviour of the truck driver was very strange, like a lurk, weirdo, predator. The Red Truck was an older model, with Maine plates a local person told me that near [redacted] house is a hunting camp, and the owner drives a older red truck with Maine plates.

I would appreciate any information you might be able to supply, a yes or a no will do if Keyes was in the area in Feb. 04. Also of interest is that from Constable, N.Y to Haverhill, N.H, is on route from Constable to Hampden, Maine where Keyes sister lives. Also, I'd think it likely that Keyes had access to a number of cottages/camps though out the states, either invited or not invited.

With every good wish in your work,
